# POLICIES & PROCEDURES

2024-25  
BROADCAST FACTBOOK

## PRE-GAME TIMING FORMAT

To ensure consistent timings of all pre-game activities, the opening face-off and intermissions, the following will serve as the policy for all NHL Regular Season games.

Generally, the opening face-off for all Regular Season Games broadcast by RSNs will be at eight minutes past the top/bottom of the hour. Any adjustments to these standard timings require the approval of the NHL's Game Presentation Department.

### EXAMPLE OF STANDARD TIMING FOR 7:00 PM GAME START

ELEMENT	ONE ANTHEM	TWO ANTHEMS
Game Start Time	7:08:00	7:08:00
Start 60:00 Clock	5:45:00	5:45:00
Pre-Game Warm-Up Starts**	6:29:00	6:29:00
Pre-Game Warning (2:00)	6:43:00	6:43:00
Pre-Game Warm-Up Ends	6:45:00	6:45:00
Flood Ice	6:46:00	6:46:00
Start 15:00 Clock	6:50:30	6:49:00
Clock Hits 0:00	7:05:30	7:04:00
Anthem(s) Introduction	7:05:40	7:04:10
First Anthem	7:06:00	7:04:30
Second Anthem	XXXXX	7:06:00
Opening Face-Off	7:08:00	7:08:00

Intermission Length: 18:00

\*\*Pre-Game Warm-Up start time will be adjusted for all nationally televised games.

### BETWEEN END OF REGULATION AND OVERTIME

Each Club is responsible for ensuring that the entire ice surface is cleaned by shoveling (same process used during TV timeouts) before the start of overtime and the start of a shootout. While there should be no time put on the clock between the end of regulation and the start of overtime, the expectation is that the overtime period should commence approximately two (2) minutes after the end of regulation (similar timing to a TV timeout).

### TIMING ADJUSTMENTS FOR NATIONAL BROADCASTS

The timing for National Broadcasts will be communicated via email by NHL Game Presentation Department to pertinent parties at least one (1) day prior to the affected game.

### ON-ICE PROMOTIONAL ACTIVITIES PREGAME/INTERMISSION TIMING

All on-ice activities (except for ice maintenance, anthem rehearsals including accompanying military/first responder personnel, opening ceremony rehearsals, set up for rightsholders, repairing of broken equipment, official team mascots (skating), and other League-approved game-related activities) must conclude two (2) hours before the start of pre-game warm-ups. This includes, without limitation, sponsor activations, exhibition hockey games (e.g., youth, adult, alumni, etc.), concerts, contests, cheerleaders and uses of vehicles (other than ice resurfacers).

### START OF INTERMISSION CLOCK

Intermission length is 18:00 minutes. Consistent with current practice, National Hockey League Official Rule 34 (Game Timekeeper), and Rule 77 (Game and Intermission Timing), will be applied so that the intermission time clock will commence once the last On-Ice Official exits the playing surface upon the termination of each period. The players and On-Ice Officials will be encouraged to leave the playing surface immediately.

**PRE-GAME TIMING FORMAT CONTINUED**

Regular Season game intermission programming cannot begin until the last On-Ice Official is off the ice. The ice resurfacer must be able to enter and begin operation by the 14:00 minute mark on the clock.

**MEDIA BREAKS**

Media breaks will continue to be controlled by the Commercial Coordinator in the penalty box.

Each media break is exactly 120 seconds in duration. The procedure for these breaks is as follows: at the whistle, the referees should proceed quickly to the timekeeper's bench; the players should proceed to their respective benches and the linesmen shall stand between the players benches. The Commercial Coordinator will signal the T.V. truck that there is a commercial and will start his/her watch. At the one hundred and five second (:105) mark, the Commercial Coordinator will cue the referee to blow his whistle to indicate that the players should proceed to the face-off spot. At the one hundred and fifteen second (:115) mark, the linesperson conducting the face-off will get a cue to blow the whistle to drop the puck. The puck should drop at the one hundred and twenty second (:120) mark.

There will be no commercial taken when both teams are at even strength and any of the following occurs: (i) a goal is scored, (ii) icing is called, (iii) the net is dislodged accidentally by a defending skater or goalkeeper or (iv) the puck is shot from beyond the center red line and covered by the goalkeeper which results in a stoppage of play at the first whistle following the under 14:00, 10:00 or 6:00 minute mark. The commercial break will be at the next whistle as long as both teams are at even strength and none of the above scenarios occur.

**LIGHTING REGULATIONS**

The following timing protocols have been put in place to ensure consistent lighting standards throughout the league:

<b>LIGHTING STANDARDS</b>	
Doors Open to Start of Warm-Ups	Club discretion
Start of Warm-Ups (16:00 on clock)	Full game lighting as soon as the first player from either team is on the ice
After Warm-Ups Conclude	Full game lighting for 1:00
After Warm-Ups Conclude while resurfacer(s) are on the ice	All sports lighting fixtures at a minimum of 10% brightness; OR at least 10% of sports brightness lighting fixtures at 100% brightness
After Warm-Ups and after resurfacer(s) cleared the ice	Club discretion
End of Anthem(s)	Full game lighting
End of the First Period	Full game lighting for 1:00
First Intermission while resurfacer(s) are on the ice	All sports lighting fixtures at a minimum of 10% brightness; OR at least 10% of sports brightness lighting fixtures at 100% brightness
First Intermission after resurfacer(s) cleared the ice	Club discretion, however additional lighting might be required if on ice technical issues need to be resolved.
End of First Intermission	Full game lighting at the appearance of the first home player.
End of the Second Period	Full game lighting for 1:00
Second Intermission while resurfacer(s) are on the ice	All sports lighting fixtures at a minimum of 10% brightness; OR at least 10% of sports brightness lighting fixtures at 100% brightness
Second Intermission after resurfacer(s) cleared the ice	Club discretion, however additional lighting might be required if on ice technical issues need to be resolved.
End of the Second Intermission	Full game lighting at the appearance of the first home player.
End of Regulation through Overtime & Shootout	Full game lighting
End of the Game	Full game lighting for at least 1:00

## 2024-25 COMMERCIAL COORDINATION POLICY

---

### STANDARD PROCEDURE

This commercial format is to be followed during all games to ensure consistency for clubs, officials, and broadcasts.

**Commercial Breaks:** During each regulation period there will be three (3) commercial stoppages, each one hundred and twenty (120) seconds in duration.

There are no Commercial Breaks in overtime during the regular season or the playoffs. In overtime periods during the playoffs, at the first stoppage of play at or following the 10:00 mark the ice crew will come onto the ice to shovel off the snow. As an aid to the game participants, the Commercial Coordinator shall illuminate the red light in the Penalty Bench area to indicate the first stoppage of play at or following the 10:00 mark. At this point, the On-Ice Officials can signal the ice crew to come onto the ice. Neither penalties nor icings alter this procedure. Ice cleaning will take place regardless.

**Intermissions:** Intermission length will be eighteen minutes (18:00) during regulation play and fifteen minutes (15:00) between the end of the third period and the start of overtime and between every overtime period in the playoffs (unless otherwise specified).

**Time After Goals:** Play will be held for a maximum of thirty-five (35) seconds after each goal is scored. The Commercial Coordinator will communicate with the Off-Ice Official wearing the intercom headset who will then signal to the On-Ice Official when to drop the puck to resume play. There must only be one signal given from the Penalty Bench area following a goal and this must come from the Penalty Box/ATC who is wearing the headset connected to the Video Goal Judge.

This procedure shall also be followed after every Shootout attempt, whether or not a goal is scored.

**NOTE:** The key word above is “maximum.” This does not mean the play **MUST** be held for thirty-five (35) seconds. Once Video Replay has ruled on a goal or the Shootout attempt and the Commercial Coordinator is advised that the television replays have been shown, the signal to proceed shall be given to the Linesperson standing over the puck at center ice. This procedure should never take longer than thirty-five (35) seconds unless there is an issue with the legitimacy of the goal and it is being reviewed by the Situation Room.

Commercial Breaks are to be taken at the first whistle after the following times on the game clock:

**BREAK #1 – 14:00 | BREAK #2 – 10:00 | BREAK #3 – 6:00**

A Commercial Break is not permitted if the game clock stops exactly at 14:00, 10:00 or 6:00.

**NOTE:** One (1) minute of elapsed game time must be played between any two Commercial Breaks. Example: If the first opportunity for a Commercial Break in the 14:00 window comes at 10:05 on the game clock, the next Commercial Break cannot be taken until at least 9:05 on the game clock regardless of the number of whistles under 10:00.

If one of the following events occurs at the first whistle following the 14:00, 10:00 or 6:00 minute mark, no Commercial Break will be taken.

**2024-25 COMMERCIAL COORDINATION POLICY** CONTINUED

• Icing • Net dislodged accidentally by a defending skater or goalkeeper • Puck shot into the end zone from beyond the center red line and the goalkeeper freezes the puck resulting in a stoppage of play

The Commercial Break will be taken at the next whistle, provided none of the above scenarios have occurred and teams are at even strength.

Example: The first whistle after the 14:00 minute mark comes at 13:05 and is called for icing. A Commercial Break should not be taken. The next whistle comes at 11:45 and is called for another icing. A Commercial Break should not be taken. At 10:50 a whistle is blown for a goalkeeper save. The Commercial Break is then taken. If a commercial window is missed, the standard procedure should be followed until a non-goal, non-icing whistle is called and no team is on a power play.

The procedures for taking a Commercial Break are:

- (a) At the whistle: The Commercial Coordinator turns on the red light signaling the Commercial Break to the Clubs, On-Ice Officials, and Broadcasters. Simultaneously, the Commercial Coordinator begins a count to three allowing the Broadcasters to react to the whistle. Immediately following the three-count, the Commercial Coordinator starts his/her clock beginning the one hundred and twenty (120) second Break.
- (b) At the one hundred and five (105) second mark: The Commercial Coordinator cues the Referee to blow the whistle to indicate that the players should proceed to the face-off spot.
- (c) At the one hundred and fifteen (115) second mark: The Commercial Coordinator cues the Linesperson to blow the whistle to drop the puck.
- (d) At the one hundred and twenty (120) second mark: The Commercial Coordinator turns off the red light. The Linesperson drops the puck.

NOTE: Throughout the process outlined above, the Commercial Coordinator must provide a count back to puck drop to the producer(s) running the broadcast(s) (i.e., 1:00, 0:30, 0:15, 0:10). This ensures everyone is ready for the upcoming faceoff.

The timings listed in this procedure are the league-wide standard. Commercial Coordinators are instructed to abide by these timelines for every Commercial Break. Broadcasters will take additional commercials, promotions or replays during the commercial stoppages at their own risk. However, a broadcaster may occasionally request a few more seconds to finish a recap video or a promotion to avoid missing the puck drop. In such instances, Commercial Coordinators should allow some flexibility provided this is not something the broadcaster requests on every Commercial Break. Cooperation between the Rightsholder and the Commercial Coordinator should exist, but the length of the Breaks will ultimately be dictated by the Commercial Coordinator.

Commercial Breaks may only be granted if the teams are at even strength when a stoppage in play occurs. If a goal is scored during a commercial window, the Break will be taken at the first whistle after the face-off following the goal.

If a Penalty Shot is awarded during a commercial window, the Break will be taken at the first whistle after the face-off following the Penalty Shot attempt.

**2024-25 COMMERCIAL COORDINATION POLICY** CONTINUED

If a video review occurs during a commercial window, regardless of the outcome, the Break will be taken at the first whistle after the face-off following the review.

A particular circumstance that creates a complicated situation is when a potential Coach's Challenge falls in a commercial window. The uncertainty about whether a coach will challenge a play creates a difficult decision about when to go to Break. To ensure the audience sees a potential Coach's Challenge, exercise patience and prudence when initiating Commercial Breaks on plays that may be challenged. The most susceptible situation is when there is a "NO GOAL" call on the ice because the On-Ice Officials determined the attacking team was guilty of goalkeeper interference. These plays are subject to a Coach's Challenge and it's important to be alert and aware of this. Quickly initiating a Commercial Break after these types of plays can result in television networks missing a Coach's Challenge and could create complications during the video review process. Additionally, please remember that when a Coach's Challenge or video review occurs during a commercial window, there will be no Commercial Break at this time. The Break will be taken at the first whistle after the face-off following the Coach's Challenge or review.

If a Coach's Challenge occurs after a Commercial Break was initiated, please coordinate with the television Rightsholders AND Referees to ensure that the announcement of the result of the challenge will be shown to the television audience.

The Coach's Challenge is an important part of the story on the ice and it is critical that our fans watching television are provided with the appropriate information.

No Commercial Breaks will be taken in the final thirty (30) seconds of the first and second periods or in the final two (2) minutes of the third period. A Commercial Break is not permitted if the clock stops exactly at 0:30 or 2:00, respectively. No Commercial Breaks will be granted in overtime. Any additional commercials, promotions, or replays taken during these times will be at the risk of the Broadcasters.

If a Commercial Break is missed in any period because of the flow of the game, the Break will not be made up in any subsequent period or by adding time to the clock during either game intermission. Broadcasters attempting to make up a missed Break at any point during action later in the game will do so on their own and at their own risk.

**EXCEPTIONS TO STANDARD PROCEDURE**

If, at the whistle, the game is "still being played" due to a fight or player injury, the Commercial Coordinator is not to begin the 120 second Break until play has stopped. If a fight "continues the play" after the whistle, the Commercial Coordinator will begin the three-count to the 120 second Break when the Officials step-in ending the fight. If a player injury requires on-ice medical attention, the Commercial Coordinator will use discretion as to when to begin the 120 second Break based on the circumstances of the situation. In either instance, the red light will be turned on at the whistle to signal the commercial window.

If a Commercial Break is not taken during a prescribed commercial window due to penalties or the flow of the game, the missed commercial opportunity will be made up at the first whistle in the next commercial window. In this scenario, there will be two commercials taken in the current window because the previous commercial opportunity was missed.

The second Commercial Break in the window will be taken at the first whistle after one (1) minute has elapsed from the game clock.

**2024-25 COMMERCIAL COORDINATION POLICY** CONTINUED

Example: Because of penalties and game flow, there is no opportunity to take a Commercial Break between 14:00 and 10:00 on the clock. At 9:30, the whistle blows and a commercial is taken. This Break accounts for the first commercial window of the period. Play resumes:

Scenario 1: The first whistle after the Commercial Break comes at 9:00: a Commercial Break is not permitted. The second whistle after the Commercial Break comes at 8:30: a commercial is permitted as this is the first whistle following 1:00 of elapsed time.

Scenario 2: The first whistle after the Commercial Break comes at 8:15: a Commercial Break is permitted.

The Breaks taken at 8:30 in Scenario 1 and 8:15 in Scenario 2 account for the second commercial window of the period. If penalties or the flow of the game prevent the second Commercial Break from being taken in the current window, the above procedure will repeat itself in subsequent commercial windows until all Breaks are taken.

In the event a non-coincidental five-minute major penalty is assessed with the teams at even strength and the game clock is under 14:00, a Commercial Break (if any remain) will be taken immediately prior to the major penalty beginning provided 1:00 of game time has elapsed since the previous Break.

Example: The first commercial of a period is taken at 13:30 under the standard procedure. Play resumes and a non-coincidental five-minute major penalty is called on Team A at 12:27. The second Commercial Break of the period is taken prior to the major penalty beginning. The third Commercial Break of the period will still be taken on the first whistle under the 6:00 mark according to standard procedure.

Reminder: All Major and Match penalties assessed by the Referees must be reviewed at the penalty box to confirm the right call was made.

Double-minor Penalty for High-sticking: Similar to the review of Major/Match penalties, if a Referee assesses a double-minor penalty for high-sticking, he has the OPTION of reviewing the penalty to ensure, for example, it wasn't a teammate's stick or the puck that caused the injury. If he elects to review the penalty and you are in a commercial window, delay going to commercial so that TV can broadcast the review and see the announcement before going to Break.

Minor Penalty for Delaying the Game – Puck Over Glass: When a team is assessed a minor penalty for delaying the game – puck over glass, they have the option to challenge the assessment of the penalty if, for example, they feel the On-Ice Officials missed seeing a deflection that caused the puck to go out of play. If in a commercial window, delay going to commercial in case the challenge is made so that TV can broadcast the review and see the announcement before going to Break. This is the exception to the no Commercial Break during a Coach's Challenge guideline as this does not involve the scoring (or disallowing) of a goal.

1. If at even strength, whether or not the challenge is successful (successful means the delay of game penalty is nullified by the successful challenge), the Commercial Break would be taken right after the challenge result announcement.
2. If at even strength and the team loses the challenge, they would receive two minor penalties and play 5 on 3 for two minutes\*. Commercial Break would be taken immediately following the challenge result announcement.

**2024-25 COMMERCIAL COORDINATION POLICY** CONTINUED

3. If not at even strength, challenge would be reviewed, announcement made, and no Commercial Break.

\* NOTE that the penalty for an unsuccessful challenge could result in a double-minor penalty if this were to be their second or subsequent failed challenge in the game.

Scenario 1: A minor penalty is called on Team B at 11:00, equalizing the manpower on the ice. The whistle blows at 9:45. This is the first whistle under 10:00 and manpower is even, and since the second Commercial Break was already taken at 12:27, a Commercial Break is NOT permitted. The third Commercial Break of the period will still be taken on the first whistle under the 6:00 minute mark according to standard procedure.

Scenario 2: The major penalty ends at 7:27. The whistle blows at 7:12. This is the first whistle under 10:00 with manpower even, however, a Commercial Break is NOT permitted. The only remaining Commercial Break will be taken on the first whistle under the 6:00 minute mark according to standard procedure.

In both scenarios, no Commercial Break will be taken until the first whistle under 6:00 according to standard procedure.

Example: An icing occurs at a commercial window, but a penalty or penalties are assessed that affect the on-ice strength of either team: a Commercial Break is permitted.

Scenario 1: An icing occurs and during the ensuing scrum on the ice one player from each team is assessed a minor penalty resulting in an upcoming four on four situation. This DOES "affect the on-ice strength of either team"; therefore, a Commercial Break is permitted.

Scenario 2: An icing occurs and during the ensuing scrum on the ice one player is assessed a minor penalty resulting in an upcoming five on four situation. This DOES "affect the on-ice strength of either team"; therefore, a Commercial Break is permitted.

Scenario 3: An icing occurs and during the ensuing scrum on the ice a fight occurs and one player from each team is assessed a major penalty for fighting. This DOES NOT "affect the on-ice strength of either team"; therefore, a Commercial Break is not permitted.

Scenario 4: An icing occurs, and no Commercial Break is taken. During the conducting of the ensuing face-off, one player from each team is assessed a minor penalty. A Commercial Break can now be taken as this DOES "affect the on-ice strength of either team."

SCENARIO	BREAK?	WHY
Icing - no penalties	NO	DOES NOT affect the on-ice strength of either team - still 5 on 5
Icing and minor penalty for one player on each team also at whistle (4 on 4)	YES	DOES affect the on-ice strength of either team - 4 on 4
Icing and minor penalty for one player also at whistle (5 on 4)	YES	DOES affect the on-ice strength of either team - 5 on 4
Icing and major penalty for one player on each team also at whistle (5 on 5)	NO	DOES NOT affect the on-ice strength of either team - still 5 on 5
Icing occurs, no break is taken, but during ensuing face-off, before puck is dropped, a penalty is called	YES	DOES affect the on-ice strength of either team - 5 on 4, or 4 on 4 (if a player from each team is called)

**2024-25 COMMERCIAL COORDINATION POLICY** CONTINUED

---

Other Examples: A non-coincidental five-minute major penalty is called with 17:00 on the game clock: a Commercial Break is NOT permitted.

The third Commercial Break of a period is taken at 5:30. A non-coincidental five-minute major is called at 5:15: a Commercial Break is NOT permitted.

The only other permitted exceptions allowing for commercials to be taken outside of the prescribed windows of 14:00, 10:00, and 6:00 are: player(s) injury, damage and/or repair to the playing surface (glass, boards, net), or any other abnormal delay which may require excessive time to sort out. Any Commercial Break taken under these circumstances must follow the standard procedure described above and the Commercial Break will replace the next commercial window of the current period (if there are any). If the abnormal delay occurs after the third commercial window and it is anticipated to be a considerable delay, an additional Commercial Break may be taken.

Example: The glass breaks at 16:25 and the Commercial Coordinator signals a commercial stoppage. This Commercial Break represents the 14:00 window. The 10:00 and 6:00 windows will be taken under the standard procedure.

## NHL BROADCAST RIGHTSHOLDER ACCESS POLICY

### 1. REGULAR SEASON PRIORITIES GUIDELINES

#### In Canada

- a) Rogers 1-National\*/Prime Video
- b) ESPN/TNT Sports - National
- c) Rogers 2 (TVA) - National
- d) Home TV - Local \*\*
- e) Visiting TV - Local \*\*
- f) NHL International
- g) National Radio
- h) Home Radio
- i) Visiting Radio
- j) NHL Network
- k) NHL Productions
- l) NHL Social Media
- m) NHLPA Social Media

\*Note: At their discretion for games in Montreal, Rogers can opt to give Rogers 2 (TVA) the Rogers "a" position or "a" access. In those instances ESPN/TNT Sports maintains their "b" position and status.

\*\*Note: Montreal Canadiens regional-only television coverage with two productions, RDS is recognized as the local primary followed by TSN.

#### In USA

- a) ESPN/TNT Sports - National
- b) Rogers 1 - National\*/Prime Video

- m) NHLPA Social Media

\*Note: At their discretion for Montreal Canadiens telecasts, Rogers can opt to give Rogers 2 (TVA) the Rogers "b" position or "b" access.

\*\*Note: Montreal Canadiens regional-only television coverage with two productions, RDS is recognized as the local primary followed by TSN regional.

### 2. PLAYER ACCESS SUMMARY AND PROCEDURES

#### INTERVIEWS – EXPECTED PLAYER AVAILABILITY

##### PRE-GAME

- Pre-taped sit-down either pre/post the morning skate or during the designated 30-minute availability window beginning two hours prior to game time. These interviews must be coordinated by the Rightsholders and scheduled with the Club Media Relations representative and will last no longer than five (5) minutes.
- At the bench during the pre-game warm-up or in the hallway outside the dressing room just prior to the pre-game warm-up.
- Rightsholder requests for pre-tape interviews prior to an evening game (5 PM local time or later), including interviews during the pre-game warm-up, must be made to the appropriate Club Media Relations department by the conclusion of the morning skate, or no later than 12:00 noon local time in the event that a team does not skate on game day. For afternoon games (starting prior to 5 PM local time), requests for interviews must be made no later than 9 AM on game day, and preferably will be arranged the day before the game.

##### IN-GAME/INTERMISSIONS

- Except in the case of treatment for injury, following the conclusion of the first and second periods (and the third period in the case of a playoff game going to overtime) as the teams exit the ice. Players are encouraged to remove their helmet for these "quick hit" interviews.
- "Quick hits" are intended to be "live" stand-up interviews in the hallway leading to the dressing rooms (not in-studio) and will last one and a half minutes (1:30) or less so as to allow the Player the ability to

**NHL BROADCAST RIGHTSHOLDER ACCESS POLICY** CONTINUED

reach the dressing room in a timely manner.

- Intermission interviews must be requested before the two-minute (remaining) mark of the period.
- Although games are typically broadcast by multiple rightsholders, no Player may be requested for more than one “quick hit” interview per game.
- It is the responsibility of each Club’s Media Relations representative to ensure that Players are wearing an official game sweater or other non offensive clothing during all intermission interviews (no shirtless Players).
- Clubs must make Players available to all Rightsholders covering each game during each intermission (i.e., if three (3) Rightsholders are broadcasting a game, each Club must provide up to three (3) individuals on request for interviews during each intermission), specifically Players who have had a positive effect on the game during the period of play preceding the intermission.

**POST-GAME**

- Except in the case of treatment for injury, immediately after coming off the ice at the end of the game during the five-minute exclusive window before the dressing rooms are opened to the general media. Players are encouraged to remove their helmet for the post-game interview.
- Post-game interviews must be requested by the two-minute (remaining) mark of the third period.
- Rightsholders, particularly during national broadcasts, may request more than one post-game interview and may, in consultation with the Club Media Relations staff, continue to interview Players beyond the five-minute cooling off period when the dressing room has been opened.

**WIRELESS MICROPHONES**

- Subject to the limitations set forth below, all Players, including the starting goaltender, are required to wear a microphone if and when requested. No more than two (2) Players per team will be required to wear a microphone during any one (1) game, and Rightsholders will not be permitted to request microphones on the same Player(s) every game.
- National Rightsholders will submit a request list of three (3) Players and/or Coaches mutually agreed upon by NHL Broadcasting to the Club Media Relations Director three (3) days before the game in question.
- No single Player will be asked to wear a microphone more than the following number of times during the regular season:
  - Eight (8) games total by National Rightsholders (i.e. ESPN, TNT Sports, Rogers Sportsnet, Prime Video and TVA)
  - One (1) game per month by their team’s Local Rightsholder
- The Club will notify NHL Broadcasting and the National Rightsholder 24 hours before the game with respect to which Player(s) or Coach will wear the microphone (maximum of two (2) individuals per team per game).
- Microphone requests for Local Rightsholders will be handled in a manner and on a timeline mutually agreed to by the Rightsholder and the Club.
- All audio acquired by National Rightsholders’ wireless microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders’ wireless microphones will be pre-screened and approved by the Club that the audio is acquired from, in accordance with the Guidelines for Use of Audio before being used on air.

**3. HEAD COACH ACCESS SUMMARY AND PROCEDURES****INTERVIEWS – EXPECTED HEAD COACH AVAILABILITY****PRE-GAME**

- Pre-taped sit-down either pre/post the morning skate or during the designated 30-minute availability window beginning two hours prior to game time.

**NHL BROADCAST RIGHTSHOLDER ACCESS POLICY** CONTINUED

- Exclusive off-camera availability to television and radio Rightsholder talent for 15 minutes on game day, either before or after the team's morning skate, or as soon as possible after the team's arrival at the arena before the game.
- Live, approximately 45-second interview just prior to the national anthems (location to be determined by building logistics).
- Rightsholder requests for pre-tape interviews prior to an evening game (5 PM local time or later), must be made to the appropriate Club Media Relations department by the conclusion of the morning skate, or no later than 12:00 noon local time in the event that a team does not skate on game day. For afternoon games (starting prior to 5 PM local time), requests for interviews must be made no later than 9 AM on game day, and preferably will be arranged the day before the game.
- These interviews must be coordinated by the Rightsholders and scheduled with the Club Media Relations representative and will last no longer than five (5) minutes.

**IN-GAME/INTERMISSIONS**

- Taped, approximately 45-second interview during one pre-determined commercial break each game OR live, approximately 45-second interview just prior to the start of either the second or third periods (at the discretion of the Rightsholder, not the Head Coach or the Club).
- Following the conclusion of the first and second periods (and the third period in the case of a playoff game going to overtime) as the teams exit the ice, same as a Player "quick hit" interview.
- "Quick hits" are intended to be "live" stand-up interviews in the hallway leading to the dressing rooms (not in-studio) and will last one and a half minutes (1:30) or less so as to allow the Coach the ability to reach the dressing room in a timely manner.
- Intermission interviews must be requested before the two-minute (remaining) mark of the period.
- Although games are typically broadcast by multiple rightsholders, no Coach may be requested for more than one "quick hit" interview per game.
- A member of the coaching staff, preferably the Head Coach, must be available for a brief, off-camera conversation with Rightsholders' talent outside the dressing room at a specified time during the intermission (Visiting team with 5 minutes remaining on intermission clock, Home team with 3 minutes remaining on intermission clock).
- Clubs must make their Head Coach (or Assistant Coaches) available to all Rightsholders covering each game during each intermission (i.e., if three (3) Rightsholders are broadcasting a game, each Club must provide up to three (3) individuals (Players or Coaches) on request for interviews during each intermission).

**WIRELESS MICROPHONES**

- Members of the coaching staff, including the Head Coach, will be required to wear a microphone if and when requested. No more than one (1) coach per team will be required to wear a microphone during any one (1) game, and Rightsholders will not be permitted to request microphones on the same coach(es) every game.
- No one coach will be asked to wear a microphone more than the following number of times:
  - Eight (8) games total by National Rightsholders (i.e. ESPN, TNT Sports, Rogers Sportsnet, Prime Video and TVA)
  - One (1) game per month by their team's Local Rightsholder
- Microphone requests for Local Rightsholders will be handled in a manner and on a timeline mutually agreed to by the Rightsholder and the Club.

**NHL BROADCAST RIGHTSHOLDER ACCESS POLICY** CONTINUED

- National Rightsholders will submit a request list of three (3) Players and/or Coaches mutually agreed upon by NHL Broadcasting to the Club Media Relations Director three (3) days before the game in question.
- The Club will notify NHL Broadcasting and the National Rightsholder 24 hours before the game with respect to which Coach will wear the microphone (maximum of two (2) individuals per team per game).
- All audio acquired by National Rightsholders' wireless microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' wireless microphones will be pre-screened and approved by the Club that the audio is acquired from in accordance with the Guidelines for Use of Audio before being used on air.

**4. VENUE/CAMERA ACCESS SUMMARY****PRE-GAME/DRESSING ROOM BEFORE WARM-UPS**

- One (1) handheld camera may enter the dressing room for one (1) minute immediately prior to the team taking the ice for the pre-game warm-up.
- The position of the camera in the dressing room will be determined in consultation with the Club Media Relations Director and, in any case, will not extend further than ten (10) feet inside the primary dressing room entrance.
- The Club Media Relations Director (or other team representative) will announce to the Players that the camera is entering the dressing room.
- National Rightsholders may send a camera into both the home and visiting dressing rooms; a Local Rightsholder may only send a camera into the dressing room of its "home" team.
- The Primary Rightsholder will have priority to send their camera into the dressing room. The Rightsholder that does send a camera into the dressing room must accommodate reasonable requests for specific shots from other Rightsholders.
- In the event that both a National and Local Rightsholder broadcast a game, no more than one (1) camera may be sent into either room.
- NHL Broadcasting or the Club whose dressing room is being recorded must approve any audio or video acquired during this one-minute window, in accordance with the Guidelines for Use of Audio, before it goes to air. No shots of whiteboards are permitted.
- Rightsholders may place handheld cameras on the Player benches during the pre-game warm-up prior to the Players taking the ice. National Rightsholders may place one (1) camera on the bench of each of the two (2) participating teams. Local Rightsholders may place one (1) camera only on their own team's bench.
- Cameras and cables must be positioned as unobtrusively as possible as to stay out of the way of Players exiting the ice and other Club personnel doing their jobs.
- There are no lights allowed on the Player benches or ice level during warm-ups at any time.
- All audio acquired by National Rightsholders' cameras on the bench during the pre-game warm-up will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' cameras on the bench during the pre-game warm-up will be pre-screened and approved by the Club that the audio is acquired from in accordance with the Guidelines for Use of Audio before being used on air.
- Each Rightsholder may place one (1) handheld camera on the ice to cover the national anthems but not prior to the teams taking the ice.

**NHL BROADCAST RIGHTSHOLDER ACCESS POLICY** CONTINUEDIN-GAME

- Microphones will be permitted in the proximity of the team benches. National Rightsholders may place microphones near the bench of each of the two (2) participating teams. Local Rightsholders may place microphones only near their own team's bench.
- All audio acquired by National Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by NHL Broadcasting in accordance with the Guidelines for Use of Audio before being used on air.
- All audio acquired by Local Rightsholders' wireless microphones and bench microphones will be pre-screened and approved by the Club that the audio is acquired from, in accordance with the Guidelines for Use of Audio before being used on air.
- National Rightsholders may assign an ice-level reporter who will be allowed to position themselves during play between the benches or in the access tunnel or hallway leading to the bench of either team, space permitting.
- During game play and stoppages of play, there are no lights allowed at ice level at any time.

POST-GAME

- Once the on-ice officials have signaled that the game has concluded, one Rightsholder may position a "world feed" camera on the ice.
- The Primary Rightsholder will have priority to place this camera on the ice. Rightsholders, however, may agree in advance on which entity will place the camera on the ice depending on the situation (i.e., the parties may agree that the Local Rightsholder of the winning team will put their camera on the ice).
- Rightsholders must communicate which Rightsholder will place a camera on the ice in which situations and where the camera will enter the ice to both Club Media Relations Directors two hours prior to the game.
- The Rightsholder that does place the camera on the ice must accommodate reasonable requests for specific shots from other Rightsholders.
- No audio may be used from cameras on the ice after the game.

ADDITIONAL CAMERA AND MICROPHONE POLICIES

- No video may be shot of Players in the hallways heading to their dressing rooms after they have left the ice as a result of an injury, ejection, altercation or any other potentially inflammatory situation. Rightsholders may only shoot video of Players entering or exiting the ice during pre-game, intermissions and at the end of the game. Any hand-held cameras in these areas may not be equipped with microphones.
- No microphones will be placed in the penalty box areas or at the scorer's table.
- No microphones will be placed behind or within any rink-surround padding.

**5. GUIDELINES FOR ON-ICE IN-GAME INTERVIEWS DURING NATIONAL AND LOCAL GAME TELECASTS**

- Subject to the limitations set forth below, all Players, including the starting goaltender, can be requested to do an on-ice in-game interview. All Players will be able to decline these interview requests and will not be subject to a fine or any other form of discipline. Only two (2) Players per team are permitted to be interviewed during any one (1) game.
- The interviews will take place in front of the bench or in the on-ice area between the two benches.
- On-ice in-game interviews shall only be conducted on a tape-delayed basis during commercial breaks.
- The on-ice in-game interviews shall not be more than 45 seconds.
- Rightsholders will submit a request list of three (3) Players three (3) days in advance of the game through the Players' Club PR Department. The time of the interview must be stated in the request. (i.e., first commercial break of the second period).

**NHL BROADCAST RIGHTSHOLDER ACCESS POLICY** CONTINUED

- The Club shall notify NHL Broadcasting and the Rightsholder, at least 24 hours before the game, as to which Player(s), if any, have agreed to the requested on-ice in-game interview. NHL Broadcasting shall notify the NHLPA.
- Rightsholder representatives will be available on game day at the convenience of the Player(s) to be interviewed in order to review the procedures for the interview.
- Rightsholders not adhering to these guidelines, as determined by NHL Broadcasting and the Club, and/or the NHLPA, may be denied this enhanced access in the future.

**6. GUIDELINES FOR USE OF AUDIO FROM NHL PERSONNEL WEARING RIGHTSHOLDER MICROPHONES DURING NATIONAL AND LOCAL GAME TELECASTS**

- Audio from microphones must only be used on a tape-delayed basis. All audio will be approved before going to air, either by NHL Broadcasting (national broadcasts) or by the Club from which the audio is acquired.
- Rightsholders must confirm in advance with the Club and NHL Broadcasting (national broadcasts) who will be wearing a microphone for each game. This information will be communicated to the opposing Club's PR Director and that game's on-ice officials, either by NHL Broadcasting (national broadcasts) or the Club PR Director (local broadcasts).
- Rightsholder representatives will be available on game day at the convenience of the "mic'd" individual to review the procedure and placement of microphones. Players wearing a microphone must be provided with a mini microphone (as approved by NHL Broadcasting and the NHLPA).
- Local Rightsholders are obligated to establish a suitable playback and screening system so that the Club whose audio is acquired is able to listen to and approve audio clips before they are used on air.
- Rightsholders are encouraged to play back comments from Players and Coaches that reflect the personalities, humor, intensity and other positive characteristics of those involved in the game.
- Rightsholders are not permitted to play back any remarks that would embarrass the mic'd individual, another Player, either Club, the game officials or the National Hockey League.
- Rightsholders are not permitted to play back any remarks pertaining to specific game strategy, unless it is used to illuminate a play after the fact (i.e., Player tells teammate to shoot high on goalie, teammate shoots high and scores).
- Rightsholders are not permitted, in any fashion, to play back any comments that include profanity (even if the profanity is "bleeped" or edited out) or any other commentary of an inflammatory nature.
- Rightsholders are not permitted to play back any comments concerning the health of a Player and/or the status of an injury or other medical matter.
- Rightsholders not adhering to these guidelines, as determined by NHL Broadcasting and the Club, and/or the NHLPA, may be denied this enhanced access in the future.
- Audio captured by any microphone may not be utilized by a Rightsholder (or another party) for any purpose not expressly authorized by the Policy, including utilization in connection with any disciplinary action involving a Player.
- Any audio clips not broadcast during the game, shall not be used in subsequent broadcasts without the express permission of the NHL and the NHLPA.

**NATIONAL RIGHTSHOLDERS**

*\*Upon request and with approval from the NHL and the NHLPA, National Rightsholders may be granted permission for additional production and access initiatives not covered in this Access Policy.*

## NHL SOCIAL MEDIA ACCESS POLICY

Social media offers the NHL, NHLPA, the Clubs and the Players a multitude of innovative ways to share the game with fans. Whether it's a post on X or Instagram – each time we hit “Publish,” we have the potential to offer a unique window into our sport, the lives of the athletes who play it, and the fans who follow it with unrivaled passion. The NHL and the NHLPA believe that it is important to leverage social media to share the game and connect with fans with the cooperation of the Clubs and Players.

To facilitate the capture and sharing of raw content and moments from regular season NHL games, the NHL Social Media team (“NHL Social Media”) sends a Live Social Contributor (LSC)<sup>1</sup> to each game. Using a smartphone or camera, LSCs are directed to capture content at regular season NHL game, and that content is made available via Greenfly before, during, and after each game to the Social Media teams of the home team and the visiting team as well as NHL Social Media. LSCs do NOT have the authority to publish content directly to any social media accounts of the League or the Clubs nor to publish, post, or share any live content.

Furthermore, please note that all LSC content made available to the Clubs is provided “as is.” Each Club is strongly encouraged to work closely with its legal representatives to address the clearance of any necessary third-party rights. Clubs have no obligation to use the content made available by LSCs and remain responsible for any content they publish to Club social media channels.

All LSCs are required to participate in orientation at the start of each NHL regular season (or at a later date if they begin work during the season) where they are trained on the expectations for their roles on-site at NHL regular season games, including the need to follow procedural guidelines and NHL and venue rules. NHL Social Media, including the LSCs, work closely and cooperatively with each Club's Social and Communications teams. LSCs (as well as any member of NHL Social Media) shall receive the access to games as set forth in this Policy, including access to the areas of the arena bowl and concourse, through the issuance of the appropriate credential by the home Club.

### PLAYER ACCESS SUMMARY

#### INTERVIEWS – PLAYER AVAILABILITY

- NHL Social Media (including LSCs) and NHLPA Social Media may request access to players for content capture, interviews and player interaction. Access shall be determined by each club's PR and/or Media Relations Directors

#### POST-GAME

- NHL Social Media (including LSCs) and NHLPA Social Media are permitted access to interview players and are subject to the same procedures as outlined for rightsholders in the “NHL Broadcast Rightsholder Access Policy”

### VENUE ACCESS SUMMARY

#### PRE-GAME

NHL Social Media (including LSCs) and NHLPA Social Media are permitted access to team arrivals areas, tunnels and bench(es) to record video and capture photos within the broadcast window for the NHL game

#### IN-GAME

- Ability to attach a GoPro or other approved camera-types between team benches to capture bench celebrations, moments, etc.,

<sup>1</sup> Additional members of NHL Social Media and NHLPA Social Media may also be present at NHL games to capture content.

## NHL SOCIAL MEDIA ACCESS POLICY CONTINUED

- Ability to have access in ice resurfacer tunnel and other arena-specific areas (e.g., standing room only areas) that allow for quality content capturing
- NHL Social Media (including LSCs) have access to an on-the-glass position throughout the duration of the game
- NHL Social Media (including LSCs) have access to non-utilized photo holes throughout the duration of the game

### *POST-GAME*

- One (1) personnel from NHL Social Media (including LSCs) and one (1) personnel from NHLPA Social Media will have access to winning team's tunnel and bench area immediately at the conclusion of the game
- Access to press conferences

## NHL PRODUCTIONS, ALL-ACCESS/"BEHIND-THE-SCENES" PROGRAMMING POLICY

To both promote and chronicle many of our tentpole events and enhance the connection our fans crave with our Players and Coaches, NHL Productions – the League's in-house content production department – either produces on its own or partners with external entities to create special programming. Examples of such initiatives include but are not limited to: Road to the Winter Classic, Quest for the Stanley Cup, Behind the Glass, All-Star All-Access and short-form content such as Skates Off and Stanley Cup Playoffs Live Wire.

These projects are completely under the League's control and are executed in partnership with the NHLPA. For such initiatives, more extensive access is required than for standard Rightsholder programming, and the content capture and subsequent use is conducted in accordance with the November 9, 2022 "Behind the Scenes" Letter Agreement between the NHL and the NHLPA.

### LOCKER ROOM ACCESS

**Pregame:** Camera crews shall be permitted to shoot Player arrivals, pregame preparations, the Head Coach's address to the team and walk-outs from the room to the ice surface.

**Intermissions:** During select productions (e.g., Quest for the Stanley Cup), camera crews shall have access to the locker room during intermissions.

**Postgame:** Crews shall be permitted to follow winning teams into their locker room to chronicle the immediate aftermath of games – including any Coach's address and Player of the Game ritual. During select productions (e.g., Quest for the Stanley Cup), crews may seek permission to obtain similar access to the losing team's locker room.

**During Games:** GoPro cameras and microphones may be installed at Club benches to capture sights and sounds that cannot be adequately covered by the camera crews assigned.

### HEAD COACH ACCESS

Head Coaches are required to wear microphones whenever asked – including for all covered Playoff games and Regular-Season games during the run of shows such as Road to the Winter Classic.

Head Coaches will be asked to have camera crews spend time with them away from the rink – including, but not limited to, home visits, ride-alongs and strategy sessions. All such requests will be made recognizing the limitations on Coaches' time and their need to prioritize family and team commitments.

## NHL PRODUCTIONS, ALL-ACCESS/“BEHIND-THE-SCENES” PROGRAMMING POLICY CONTINUED

### PLAYER ACCESS FOR ALL-ACCESS/“BEHIND-THE-SCENES” PROGRAMMING

Multiple Players may be asked to wear microphones for each game. Individual Players may be asked to wear microphones for multiple games of a Playoff Series or for the run of a Regular Season show. Best efforts will be made to ensure the same Players are not always asked to wear microphones. These provisions are generally consistent with those incorporated in the Broadcast Rightsholder Access Policy.

Player change rooms are completely off limits to filming while Players are present, while Player lounges and medical treatment rooms are off-limits to filming unless all Players who are present consent to filming in those locations.

Players may be asked to have camera crews spend some time with them away from the rink – including, but not limited to, home visits and ride-alongs. All such requests will be made recognizing the limitations on Players’ time and their need to prioritize family and team commitments. While Players are encouraged to provide their reasonable cooperation consistent with the objectives of these content projects, their participation in off-ice filming is voluntary. If Players agree to have crews follow/film them off ice and outside the arena, they have the right to have the cameras turned off at any time. The NHLPA has the right to have a representative attend all Player filming sessions.

If a Player agrees to wear a microphone for purposes of inclusion of audio in an All-Access/“Behind the Scenes” project, the content recorded will not be used in that game’s live broadcast (except with the Player’s prior consent), and will be subject to the same review and approval process involved for all other captured content (video and audio) before being utilized.

### REVIEW PROCESS

All content will be subject to the timely and reasonable prior review and approval of appropriate representatives from the League, the NHLPA and the Club(s) involved before it will be distributed in any form or on any platform. Audio captured by wireless microphone and any other content captured as part of an All-Access/“Behind the Scenes” project may not be utilized by any party for any purpose not expressly authorized by the Policy, including utilization in connection with any disciplinary action involving a Player.

Please see attached NHL/NHLPA Letter Agreement that provides additional detail on our “All Access” partnership with the Union.

### WARM-UPS – TELEVISION RIGHTSHOLDER REGULATIONS (PLAYER BENCHES AND TALENT RINKSIDE LOCATIONS)

- One camera & talent per Television Rightsholder is allowed on the player benches during warm-ups for interviews once the Players have taken the ice. If a utility is needed, they should stand off the bench in the hallway or back of house when possible. Once their work is completed, personnel should leave the bench area immediately.
- **Under no circumstances should any Rightsholder personnel (talent/camera/utility) be on the ice surface at any point during warm-ups.**
- **There are no lights allowed on the Player benches during warm-ups at any time.** Lights used around the bench areas earlier in the day must be struck well before the Players come out for warm-ups.
- While Players are on the ice for warm-ups, there are no lights (sun guns, lights on stands, etc.) allowed to be powered on and facing the ice at any rinkside locations, including the Zamboni entrance, camera wells, and other talent locations that are in close proximity to the ice.
- These rules are for the safety of both the Players and those working, and any talent or Rightsholder personnel who violates these rules will lose the privilege to be on the bench area and/or rinkside locations during warm-ups.

## NHL DRESS GUIDELINES FOR TELEVISION AND RADIO RIGHTSHOLDER PERSONNEL

---

The National Hockey League strives to maintain an environment that is well functioning and free from unnecessary distractions and conflicts. As part of that effort, the NHL requests that television and radio Rightsholder personnel, including camera operators, utility technicians, audio support staff, engineers, producers, etc., who are working on or in close proximity to the ice surface, directly behind the glass, on the benches, in or around Club dressing rooms, or in any other highly visible or sensitive location inside the arena adhere to the dress code guidelines set forth below beginning 90 minutes prior to the scheduled start of the game:

- Dark shirt and dark pants, or jeans (preferably black)
- No shirts, hats, or apparel with writing or logos
- No sleeveless blouses or shirts
- No crop tops and beachwear
- No ripped, frayed, or disheveled clothing or athletic wear
- No sandals, thongs, flip flops, or open-toe shoes
- No tight, revealing, or otherwise inappropriate clothing

Anyone who does not meet the NHL's dress guidelines will be subject to corrective action and may be asked to leave his or her designated work area to change clothing.

## HIGHLIGHT USAGE REGULATIONS FOR LOCAL & NATIONAL TV NEWS AND SPORTS NEWS STATIONS

---

The following is the license for the use of highlights from National Hockey League ("NHL") games by your station (the "station") for news and sports news programs (the "License"). Highlights from NHL games and practice, whether taken from satellite transmissions, over-the-air telecasts, cablecasts or otherwise, are the property of NHL Content Licensing, the NHL and/or its specifically authorized or designated assignees or licensees. Under the Copyright Revision Act of 1976, the NHL has the right to protect its game transmissions.

*NHL Content Licensing is the exclusive licensing agent of the NHL for NHL game and practice footage and any use of such footage is subject to the prior written consent of NHL Content Licensing and / or must be in accordance with the terms and conditions of the attached license.*

Generally, the NHL does not object to local and national TV news stations excerpting game and practice highlights for news or sports news programming. Objection will be raised, however, if the use exceeds the various time and other constraints set forth in the License or if there is a commercial use by the Station or through any other television station, network or other party. Violations of this License may subject the Station to revocation of its license and/or any other legal or equitable remedy available to the NHL.

In the event that the Station (i) wishes to use NHL highlights at such times and/or circumstances not expressly permitted by the License, or (ii) needs additional NHL game footage, footage from recent NHL games or practices or archival footage from the NHL library, please contact Hannah Readnour of NHL Content Licensing at [hreadnour@nhl.com](mailto:hreadnour@nhl.com). Use of NHL game or practice footage in weekly sports highlight programs or any other commercial exhibition requires prior written approval of NHL Content Licensing. In

## HIGHLIGHT USAGE REGULATIONS FOR LOCAL & NATIONAL TV NEWS AND SPORTS NEWS STATIONS CONTINUED

---

addition, any request that you receive for an NHL footage license may only be granted by, and must be referred to, NHL Content Licensing.

Credentials for on-site game and practice coverage are issued by the Public Relations Directors at the NHL Clubs, and are subject to conditions and limitations contained in such credentials and the attached license, which may be changed without notice by the NHL. Credentials for Winter Classic, All-Star Weekend, Stadium Series and Stanley Cup Final will be issued by the NHL ONLY.

Should you have any questions, please contact Hannah Readnour at [hreadnour@nhl.com](mailto:hreadnour@nhl.com).

### 2024-25 HIGHLIGHTS LICENSE

---

1) Subject to the conditions, restrictions and limitations set forth herein, a television station and its wholly-owned and branded properties (the "Station") may use videotaped or filmed excerpts of a National Hockey League ("NHL") game or practice ("Highlights") only for news purposes in regularly-scheduled news or sports news programs and only up to 48 hours after the completion of the game or practice to which they pertain. Use of Highlights constitutes the Station's acknowledgement of and agreement to the terms and conditions of this License. Notwithstanding the preceding sentence, up to thirty seconds of "file footage" may be used beyond the 48 hour time period in conjunction with "secondary" news stories (e.g., player trades or suspensions). Under no circumstances may live excerpts of an NHL game in progress be distributed pursuant to the terms herein. However, up to thirty seconds of Highlights of an NHL game in progress may be shown as part of regularly scheduled news program or sports news program, provided that; a) Highlights from the First Period may only be used during/after the Second Period; b) Highlights from the Second Period may only be used during/after the Third Period; and c) NO game in progress NHL Highlights may be used during the Third Period, Overtime or a Shoot-out. The uses hereunder do not include usage for player personality or feature profiles in a regularly scheduled news program or sports program without first receiving written consent from NHL Content Licensing and, in certain cases, such player or player's representative, prior to any usage. This License does not grant the user any rights to television announcer commentary from game telecasts.

2) Highlights must not exceed two minutes from any one NHL game. Highlights from more than three NHL games, including those used in conjunction with "secondary" news stories, cannot exceed seven minutes within any continuous hour of programming.

3) Visual "courtesy" credit of at least four seconds for Highlights must be given as the Highlights are displayed to: (i) the National Hockey League, and (ii) the applicable telecaster (e.g., "Courtesy NHL/BSN", "Courtesy NHL/Sportsnet"). In the case of usage of file footage, the visual "courtesy" credit should read "Courtesy NHL Network".

4) This License does not grant the user any rights to reproduce, post, distribute, transmit or otherwise use the Highlights in any manner other than as set forth in this License. The Station shall not use the Highlights for any commercial purpose. The Station shall not transmit, distribute or sell any or all of the Highlights to any third party without, in each instance, obtaining the prior written consent of the NHL. The Station

**2024-25 HIGHLIGHTS LICENSE CONTINUED**

shall not transmit or distribute any or all of the Highlights to any party that it knows or reasonably should know will resell or distribute the Highlights for a commercial purpose or any other purpose otherwise in violation of this License.

5) Neither this License nor any actions, omissions, approvals, consents or the like carries with it any right to use the name, likeness, reputation, good will, persona, or any other aspect of the right of privacy, personality or publicity of any individual or group, including any individual hockey player or group of hockey players. The Station shall not exercise the rights granted hereunder in any manner that will constitute an endorsement of a product or service by, or an exploitation of, any individual hockey player or group of hockey players without the specific written consent of: (i) such individual hockey player or group of hockey players or (ii) if appropriate, the NHL.

6) The Station may not incorporate, superimpose, or "burn-in" into Highlights or file footage any logo, trademark, advertisement or graphics without prior written permission from NHL Content Licensing or the NHL.

7) Non-NHL Rightsholders are not authorized to film inside the arena at any time during the game without the prior written consent of NHL Content Licensing. However, non-NHL Rightsholders may shoot pre- and post-game interviews, practice sessions, stand-ups and/or color pieces provided that: (i) such footage may only be used for the news-related broadcast purposes expressly described in item # 1 above, and (ii) any other use of such footage shall be subject to the prior written consent of NHL Content Licensing or the NHL.

8) In consideration for the grant of this License, the Station agrees to supply the NHL with copies of news or sports news programs, upon request and free-of-charge, and consents to the use, free of charge, of excerpts from such programs by NHL Content Licensing and/or the NHL.

9) All copyrights, proprietary interests and other incidents of ownership in and to the Highlights shall remain vested in NHL Content Licensing, the NHL and/or its specifically authorized or designated assignees or licensees.

10) Highlights may not be sold or traded to any other entity and may not be used for on-air promotion or in any other manner not specifically set forth above without obtaining the specific prior written consent of the NHL or NHL Content Licensing. By way of illustration, but not limitation, NHL game and practice footage may not be used in weekly sports highlights shows, coaches shows, on-air promotions, sports news features or profiles as file footage or more than 48 hours after completion of the game or practice to which it pertains, except as noted in item #1.

11) Sports gaming- or sports betting-themed or focused shows or programs shall not fall within the purview of this License and use of Highlights within such sports gaming or sports betting programming shall require NHL approval and execution of a NHL Footage License Agreement.

12) NHL Content Licensing or the NHL can withdraw permission for use of Highlights or file footage by notice at any time and for any reason.

**2024-25 HIGHLIGHTS LICENSE CONTINUED**

13) Neither the Highlights of NHL games nor file footage may be sold, transmitted, transferred, assigned or sublicensed without the prior written consent of NHL Content Licensing or its designee.

14) Neither the Highlights of NHL games nor file footage may be used in such a manner as to denigrate the NHL, its Member Clubs, players or officials of the sport of hockey.

15) The compilation of Highlights of NHL games and practices for any program format other than immediate news reporting is prohibited. This specifically prohibits use in "Bloopers" or similar type-show segments.

**NHL FOOTAGE REQUESTS FROM NHL BROADCAST RIGHTSHOLDERS FOR EDITORIAL AND/OR LEAGUE PROMOTIONAL USE**

All requests for NHL Footage should be emailed to James Natalie (jnatalie@nhl.com) and should include the following information, as applicable:

- 1) Name, address and phone # of requestor and team/rightsholder affiliation
- 2) Description of intended use of NHL Footage (e.g. in-arena feature, game promo, etc.)
- 3) Time frame for delivery of NHL Footage (typically three to five (3-5) business days for recent footage, five to seven (5-7) business days for historic footage)
- 4) Email for footage delivery

Once NHL Content Licensing receives the above information, the request will be forwarded to NHL Legal and other relevant departments for review. Upon Legal approval, NHL Content Licensing will research, edit and dub the requested NHL Footage and send.

Member Clubs/Rightsholders will be invoiced at internal Search & Edit rates.

Pre-1994 Molson/CBC Footage may be used as part of a game broadcast by the NHL's National Broadcasting Partners and Local Television Rightsholders as well as for In-Arena/Jumbotron display, provided the footage is in no way sponsored by a company engaged in the malt beverage industry, except for certain permissible uses by certain sponsors as determined by NHL Content Licensing.

Please note that Clubs and Rightsholders are NOT permitted to supply NHL Footage to local licensees, sponsors or broadcasters directly for commercial use.

Any/all other types of footage requests should be emailed to Hannah Readnour (Hreadnour@nhl.com) to be handled on a case-by-case basis.

## RESTRICTIONS ON LICENSING FOOTAGE

---

- Footage containing fighting, injuries, penalties, or anything that may be interpreted as reflecting negatively upon the NHL, its players, coaches, officials, fans or sponsors will not be released for any reason.
- With the exception of “historical” footage, all footage released must contain current uniforms, logos and other NHL marks.
- No footage will be released with announcers’ calls or with copyrighted music.
- No footage will be released of any player or coach who is currently serving a suspension or who has been banned from the NHL.
- No footage will be released of any player, coach or official currently under criminal investigation or in the news for negative reasons without written approval from NHLE Legal and/or the Office of the Commissioner.
- No footage will be released if there are sensitivities, as determined by NHL Club Services, with regard to local Partnerships/Sponsorships of Member Clubs.
- Pre-1994 Molson/CBC Footage cannot be used by any company/sponsor engaged in the malt beverage industry, except for certain permissible uses by certain sponsors as determined by NHL Content Licensing.
- Non-NHL Rightsholders are not authorized to film inside the arena at any time during the game without the prior written consent of NHL Content Licensing. However, non-NHL Rightsholders may shoot pre- and post-game interviews, practice sessions, stand-ups and/or color pieces provided that: (i) such footage may only be used for the news related broadcast purposes expressly described in item # 1 above, and (ii) any other use of such footage shall be subject to the prior written consent of NHL Content Licensing or the NHL.
- No footage focusing on any individual fan will be released.
- No footage will be released or licensed to fans for personal use.
- Release of footage may be subject to additional restrictions depending upon the circumstances of each request.

## REQUIRED NHL PROMOTIONAL SPOTS ON BROADCASTS

---

Each Club must require that its local TV and Radio Rightsholders provide the NHL, at no charge, with two (2) 30-second promotional spots during each broadcast in which the NHL may promote NHL services, products, promotions and/or special events. Where appropriate, the NHL may seek to use these spots outside of the game broadcast. NHL Promotional Inventory is also a requirement of all national rightsholders including, but not limited to: ESPN, TNT Sports, Rogers Sportsnet, Prime Video, TVA, NHL Network, and NHL Network Radio on Sirius XM. All rightsholders are required to email monthly affidavits attesting to dates, times and programs in which the NHL Promotional Spots have appeared to NHL Marketing, Gina Parisi, e-mail: gparisi@nhl.com, phone: 917.838.8605.

## NON-RIGHTSHOLDERS ACCESS

---

The following access rules and regulations will apply to all non-rightsholders in both radio and television:

1) Any non-rightsholder wishing to work an NHL Regular Season or Playoff game must be properly credentialed prior to the day of the game. During the regular season and the first three rounds of the Stanley Cup Playoffs, credentialing will be administered by the Clubs. During any League event, including the NHL Face-Off, the NHL All-Star Game and Stanley Cup Championship, credentials will be administered by the League.

## **NON-RIGHTSHOLDERS ACCESS** CONTINUED

2) All non-rightsholders including local news/sports ENG crews, shall abide by the same regulations which apply to the print media. Access to players and coaches will be allowed in the dressing room only and only after the allotted five minutes (5) has passed at the conclusion of the game.

3) Any and all news “live shots” that utilize the playing surface as a backdrop must conclude thirty (30) minutes prior to the window for television broadcast/cablecast of the game. News entities requiring “live shots” during the telecast window must conduct these “live shots” only within the media work area. In addition, those entities wishing to utilize game footage (up to :30) so long as these highlights are not live excerpts during the live shots shall utilize the telecast of the primary carrier and must include a 5-second video courtesy to the NHL and to the applicable rightsholder.

## **REQUIRED ACCESS TO TV AND RADIO SIGNALS**

Rightsholders shall provide to the NHL, or its designee(s), at no charge, all live feeds in all formats, including, at a minimum: (i) a backhaul transmission with split audio (one channel to include full mix audio and one channel to include international sound only); and (ii) a fronthaul transmission with graphics, full mix audio, commercials, and, if requested by the NHL, any enhancements of each full game telecast in order to facilitate the retransmission, reproduction, retecast, redistribution, recording, licensing, selling, and/or any other distribution of such feeds (or any portion thereof) by the NHL, or its designee (s), for any lawful purpose in any media now known or hereafter developed, including, without limitation, for distribution of live games, cut-ins and highlights.

## **FILING OF LOCAL AGREEMENTS AND SUBORDINATION TO LEAGUE RULES**

Each club shall submit its local radio and television agreements to the League for approval prior to execution. Each such agreement, in all respects and at all times, shall be subject and subordinate to: (i) the NHL Constitution; (ii) the NHL By-Laws; (iii) all other rules, regulations, interpretations, procedures, policies and resolutions of the League, including the NHL’s Model Television and Radio Language, (iv) any agreements between or among the NHL, its affiliates, and/or its Member Clubs and/or other parties in furtherance of NHL business or interests or as otherwise authorized directly or indirectly by the NHL Board of Governors, the NHL Commissioner, or the NHL Constitution or By-Laws; all as the same may now exist or hereafter be amended or enacted or as they may be interpreted by the Commissioner.

## **COPYRIGHT OWNERSHIP OF LOCAL TELEVISION AND RADIO BROADCASTS**

The League and/or the Club shall own the copyright to each local broadcast for worldwide use in all media in perpetuity. Each Club shall include language, approved by the League office, effectively claiming and protecting such copyrights in the agreements with its local radio and television broadcasters. The following notice (in substantially similar words) shall be included at least once in all broadcasts: All rights to this broadcast are reserved and any rebroadcast, recording, retransmission or other use of this broadcast without the express written consent of the National Hockey League is expressly prohibited. ©202\_ National Hockey League. To the extent the NHL supplies a pre-produced copyright announcement, each broadcaster is expected to use such announcement in its broadcasts.

## RADIO REGULATIONS

---

### 1. PURPOSE

These rules (the “Radio Regulations”) are intended to govern the distribution of the radio signal and radio broadcasts of local radio broadcasts and the NHL Radio Network. It is the intent of these rules to clarify the respective rights of all League and the Member Clubs so as to expand the number of radio broadcasts of NHL games nationally, to preserve competitive balance within the League and to prevent free riding and other inequitable or uneconomic conduct.

### 2. GRANT OF RIGHTS

#### *a) 500-Mile Radio Territory*

1) Each Club will be granted an “Extended Radio Territory,” which shall include the Club’s 50-Mile Home Territory. The outside boundary of the Extended Territory shall be a circle with a 500-mile radius, the center of which is the main post office of the Club’s franchise city. A Club shall be authorized to distribute its local radio broadcasts via any radio station or transmission tower located within its Extended Radio Territory.

2) The League shall review all such transmission arrangements: (i) within the last 50 miles of Extended Radio Territory (i.e., miles 450 to 500) so as to prevent, to the extent practicable, the transmission of the Club’s radio broadcasts substantially outside the Extended Radio Territory; and (ii) to ensure, to the extent practicable, that one Club’s broadcasts are not transmitted substantially inside another Club’s 50-Mile Home Territory.

#### *b) Shared or Overlapping Territories*

1) When the 50-Mile Home Territories of two or more Clubs overlap, none of the involved Clubs shall have any rights of transmission exclusivity via radio stations or towers located within that shared territory.

2) Similarly, when the Extended Radio Territories of two or more Clubs overlap, none of the involved Clubs shall have any rights of exclusivity within their shared Extended Radio Territory.

3) When the Extended Radio Territory of one Club (“Club A”) extends into the 50-Mile Home Territory of another Club (“Club B”), the transmission rights granted to Club A within its Extended Radio Territory shall not apply within the 50-Mile Home Territory of Club B, i.e., Club A shall not be permitted to distribute its signals via a radio station or transmission tower located in Club B’s 50-Mile Home Territory.

#### *c) Outside Extended Radio Territory*

No Club shall be authorized to distribute its local radio broadcasts via any radio station or transmission tower located outside of its Extended Radio Territory, nor otherwise contract with another Club or its radio rightsholders for the distribution of another Club’s local radio broadcasts within any part of its Extended Radio Territory via any technology, means or manner (including but not limited to cable radio, digital radio, satellite radio, the Internet, etc.).

**RADIO REGULATIONS CONTINUED****3. NHL RADIO NETWORK**

The League, on behalf of all Clubs, shall be recognized as the exclusive agent for the creation of the “NHL Radio Network,” and for the distribution of features, highlights, NHL Games, the All-Star Weekend, and any other or related programming involving the National Hockey League on a national or international basis.

*a) First Offer to Local Radio Networks*

1) The League shall offer any and all NHL Radio Network programming to the flagship of each Club’s local radio network (unless directed otherwise by such Club) prior to making such offer to any other party within the Club’s 50-Mile Home Territory.

2) In the event that a Club and/or its flagship decline to distribute any such programming, the League shall then be free to offer any such programming to any other radio station (within the Club’s 50-Mile Home Territory; provided, that the League shall not distribute an NHL Radio Network game involving a Club via a radio station or transmission tower located inside such Club’s 50-Mile Home Territory at the same time the Club is distributing the radio broadcast of any of its games, without the prior consent of such Club.

3) At all times, the NHL Radio Network shall have the right to offer such programming beyond each Club’s 50-mile Home Territory.

**4. INTERNET/SATELLITE/WIRELESS**

The League shall have the right to post live radio game broadcasts of each NHL Club on its website at NHL.com and each Club (and its flagship) shall have the right to post the radio broadcast of its games on their respective websites. Also, the League may distribute both the home and away feeds of each Club’s live radio broadcast via wireless or satellite radio. As a result, both the home and away radio broadcasts of NHL games involving and not involving a Club may be transmitted via the Internet, wireless, and/or satellite radio in the applicable Club’s Extended Radio Territory and 50-Mile Home Territory, including at the same time that the Club’s games are being terrestrially broadcast by the Club’s flagship.

**NHL ONLINE TRANSMISSION POLICY (AS OF OCTOBER 1, 2024)**

The following conditions apply without exception to all media organizations and other entities and individuals (“Accredited Organizations”) that (a) have been granted media credentials or photo credentials for the purpose of news and editorial coverage of NHL games (the “Credential Bearer(s)”) and (b) intend to transmit and/or distribute via digital platforms and/or social media channels reports about NHL games while they are in progress (“Online Game Reports”):

1) Online Game Reports may be transmitted and/or distributed online only on the official website(s) or the official, verified social media channels of the Accredited Organization (the “Bearer Sites”) and only for news and editorial purposes.

2) Online Game Reports may not comprise or include play-by-play accounts or play-by-play descriptions of NHL games. Online Game Reports shall be limited to reasonable periodic game updates that are limited in frequency and detail (i.e. the Credential Bearer may transmit On-line Game Reports no more than three (3) times during each period of the game).

**NHL ONLINE TRANSMISSION POLICY CONTINUED**

---

3) A Photo Credential is required to take still images of an NHL game, including all non-game action within the NHL venue. Notwithstanding the foregoing, media Credential Bearers have the limited, revocable permission to capture still images solely via a mobile device (i.e. no professional photography equipment) only in areas designated and approved by the NHL or an NHL member club and may only transmit or distribute a maximum of eight (8) still images per NHL game only in combination with Online Game Reports.

4) Any recording, capture, posting, or other transmission of any motion pictures, video, or any content that animates, sequences, loops or otherwise manipulates film or digital still images to appear to be video, of NHL games while they are in progress is strictly prohibited absent the express written permission of the NHL.

5) Use of any photograph of an NHL game, including non-game action within the NHL venue, or any Online Game Reports for any commercial, advertising, or promotional purpose is strictly prohibited absent the express written permission of the NHL.

6) Any and all copyrights, proprietary interests, or other incidents of ownership in and to NHL games, including accounts and descriptions of NHL games, are and shall remain vested in the National Hockey League or its affiliates, assignees or designees, as their interests may appear.

7) These terms and conditions are in addition and without limitation to all other terms and conditions appearing on and otherwise associated with receipt and utilization of credentials issued by the NHL, its affiliates or the NHL Member Clubs. In the event of a conflict between any such terms and conditions and the terms and conditions of this On-line Transmission Policy, the terms of this On-line Transmission Policy shall govern with respect to the subject matter hereof.

8) These terms and conditions are subject to change in the sole discretion of the National Hockey League at any time.

---

**NOTES**

# BROADCAST OPERATIONS

2024-25  
BROADCAST FACTBOOK

## MICROPHONE PLACEMENT ON THE GLASS

The following procedures and the attached diagram are designed to standardize the placement of television effects microphones – commonly referred to PCC's or PZM's – on the inside of the dasherboard glass.

All microphones will be mounted 9 ½ feet above the ice surface putting them 6 feet above the board. See attached diagram. To further clarify this illustration, the microphones on the end boards will be mounted at 6 feet above the boards regardless of the glass height. The microphones on the sideboards also will be mounted at 6 feet above the boards. In the event the glass height on the sideboards is 6 feet or less, the microphones should be mounted at the top of the glass.

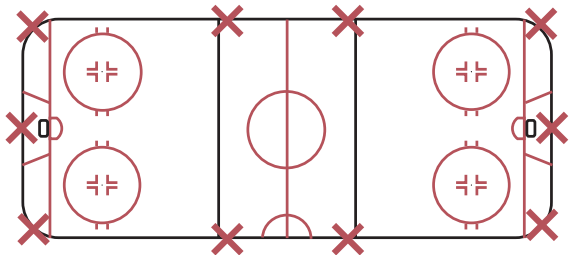

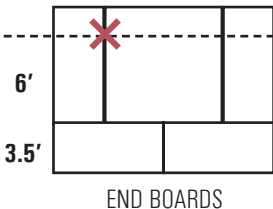

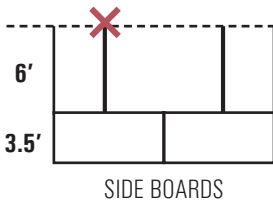

If, due to shorter side glass, a microphone would be mounted lower than 9 ½ feet above the ice surface, League Officials will have the discretion to relocate or remove the microphones that would be placed at such lower level if, in their opinion, placement of a microphone is likely to adversely impact game conditions.

Pertaining to microphones mounted at the blue lines. It is required that these be placed outside the blue lines toward center ice in the neutral zone. In the event that team benches extend beyond the neutral zone and into the attack zone, thereby not allowing microphone placement outside the blue line, that microphone is to be positioned on the side glass at the point nearest the blue line. Additionally, microphones placed in the corners must be mounted below the goal lines.

The ten locations indicated on the diagram are the approved positions for mounting the microphones. They are behind each goal, in each corner and at each blue line.

Clear microphone mounts, clips and adhesive must always be used and all cabling is to be professionally dressed with a clean look along the glass, stanchions, dasher boards and all spectator areas. Any and all cabling should not impact field of view of the playing surface for spectators or productions.

### MICROPHONE LOCATIONS:

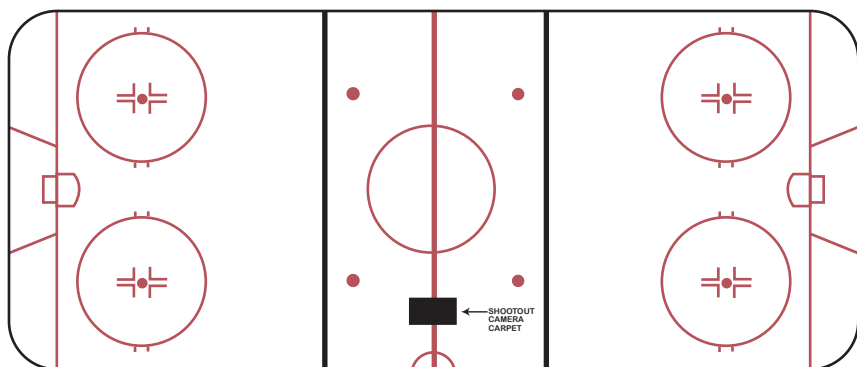

## SHOOTOUT TELEVISION COVERAGE

At the conclusion of the overtime period, a carpet (3' wide x 5' long) will be placed at the top of the official's circle near the penalty box intersecting the center red line parallel to the boards (see diagram). From there, one hand-held camera operator can be operated for the duration of the shootout. At no time during the event can the camera operator leave the carpet to improve their shooting angle or proximity to the players. If they do so, the offending rightsholder will have this on-ice privilege suspended for the remainder of the season.

It should be noted that only one camera and operator will be permitted on the ice. This camera will be provided by the lead broadcaster and the feed of the camera will be offered, at no additional charge, to all rightsholders. In the event the lead broadcaster chooses not to put a camera on the ice, it will be the option of the other rightsholders to do so, as per league protocol. At no time will the audio from this camera's microphones be used. The camera's cable can only come from the penalty box. If there is no penalty box drop for the camera cable, then no camera will be permitted on the ice.

In the event of video review, the camera/operator is mandated to move as quickly and safely as possible to the Game camera left penalty box. The operator will be able to continue to shoot from this position, but must not impede the officials from doing their job. The penalty box door must be closed. Any such impediment will result in immediate removal from this position.

## BROADCAST EQUIPMENT IN THE FIELD OF PLAY, PLAYER AREAS AND TEAM SPACES

Broadcast equipment appearing in or over the field of play during a game is a major concern for NHL Hockey Operations, NHL Officials, and the participating Clubs. There have been increased incidents of pucks hitting Broadcast equipment near the playing surface and players sliding into improperly padded in-net cameras. Representatives of the NHL Broadcast Department, NHL Hockey Operations, and/or the on-ice officials can/will survey the equipment in question and advise the appropriate parties on whether changes need to be made. NHL Officials have the right to inspect all equipment on or near the glass, in the nets, and request them to be modified. If the equipment is not modified to their satisfaction, they have the right to require its removal.

Your technical crew must remain mindful and respectful of the game and the playing surface when setting up equipment.

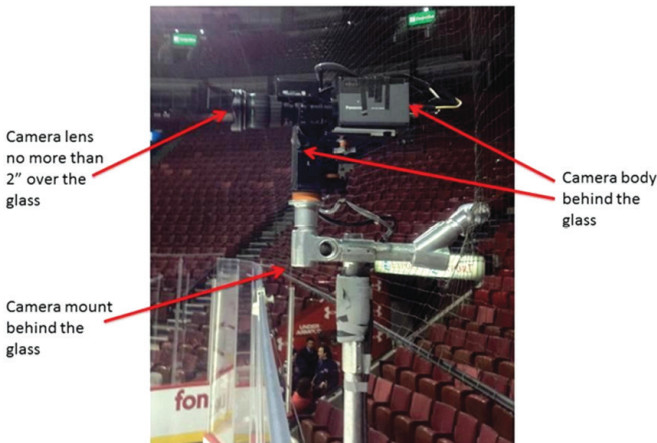

Camera bodies cannot be over the glass and lenses are not to exceed 2" from the glass at any point.

No microphones or audio capturing devices are permitted, including but not limited to; on-board camera microphones, shotgun microphones, lavaliers or headset microphones, (unless specifically approved by the NHL) in the field of play. In addition, no microphone or audio capturing devices are permitted in player areas including team benches, penalty boxes, NHL Scorer's table, player tunnels and back of house areas including locker rooms and player hallways.

All equipment installed in the between the benches position must be below the dashers (i.e. monitors, packs, talkback box, spare headsets, etc.) and behind the pads. No equipment is to be mounted or secured to the top of the pony wall.

All parties understand the important role broadcast equipment plays in the coverage of games, but it is incumbent on everyone to ensure that broadcast does not adversely affect the game.

For questions regarding Broadcast equipment in the field of play, please contact, Maggie Kukar at [mkukar@nhl.com](mailto:mkukar@nhl.com) 917.846.2108, Tiffany Spiritosanto at [tspiritosanto@nhl.com](mailto:tspiritosanto@nhl.com) 917.594.1073, Jon Muro at [jmuro@nhl.com](mailto:jmuro@nhl.com) 347.931.5038 or Dan O'Neill at [doneill@nhl.com](mailto:doneill@nhl.com) 347.853.4999.

## **ICE RESURFACER ENTRANCE USE**

---

While it is common practice for TV rightsholders to use the Ice Resurfacer or machine tunnel/entrance to the ice for pre-game or intermission hits, you must be mindful of the building's operational staff and not interfere with their ability to perform their duties. With a limited amount of space in this area and with the TV rightsholders either trying to rehearse or go live, it is important that you discuss, and get approval, the details of your plan with the Club Broadcast Director to manage with the ice crew so both parties can agree with a smooth and efficient workflow. Ice Resurfacers cannot be delayed as they attempt to get on and off the ice. It is imperative that you ensure this does not happen.

In many arenas the Ice Resurfacer gate is used as a position for handheld cameras and talent. When going to commercial break, it is important that all personnel be mindful of the ice crew as they need to enter the ice in a timely fashion.

These areas have a significant impact on the conditions of the ice, and we ask for your cooperation ensuring the ice crews are able to perform their duties without interference.

## RIGHTSHOLDER FEEDS TO NHL

In preparation for the 2024-2025 NHL season, please note the following feed specifications and technical requirements for Rightsholder game telecast(s), postgame melt(s) and in venue game day deliverables to the NHL.

### VIDEO:

**NHL STANDARD Feed:** The NHL Standard Feed, a Fully Produced Dirty - HD PROGRAM Feed non-delayed, with **NHL Edge (PPT) Enhancements**, excluding NHL Virtual (**DED/Slot/On-the-Glass executions**) is required for all games (Home & Away English language rightsholders, including all National telecasts) at the game venue. The NHL Standard Feed supports NHL Hockey Operations, including the Department of Player Safety, video review both in-arena and in Toronto and New York, and out of market distribution. NHL Network and/or NHL International will notify each RSN when their respective game will be aired nationally and/or internationally. Please note that this is a backhaul program feed. The Lead/Home broadcaster is to provide the signal in HD (1080p SDR, 1080i or 720p). If the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR. If a Rightsholder selects a "HOST" feed production model, notification to the NHL is required thirty (30) days in advance of the telecast (details below on the notification process) and requires Club approval. In a "HOST" feed production model, both the on-site and the off-site productions are REQUIRED to provide the Standard Feed at the game venue. The connectivity point for the NHL Standard Feed is the **HOME STD (Lead/Home) and AWAY STD** ports on the NHL Truck Bay Interface Box respectively. The NHL Standard feed must be active and distributed to the NHL TBI at the start the of the NHL Virtual Calibration window, a minimum of four (4) hours prior to the scheduled game start time. The technical requirements for NHL Standard Feed are below.

**NHL ARCHIVE (Clean) Feed:** The NHL Archive Feed is a "clean" feed required from the Lead/Home broadcaster in HD (1080p SDR, 1080i or 720p). If the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR. The feed includes stereo EFX audio and to be "clean" of all other production graphics, score bar inserts, all virtual executions (**DED/Slot Virtual/On the Glass**) and **NHL Edge (PPT)**. Replay wipes and program mix audio are not required. The connectivity point for this feed is the **Clean STD** port of the NHL Truck Bay Interface Box. Technical requirements for the NHL Archive Feed are below.

**NHL AUGMENTED (Virtual) Feeds:** The NHL Augmented Program Feeds, Fully Produced Dirty HD PGM Feed, **inclusive of NHL Virtual Technology, (DED/SLOT /On the Glass) and NHL Edge (PPT)**, are required for all games (Home & Away English language rightsholders, including all National telecasts) at the game venue. The signal is to be provided in HD (1080p SDR, 1080i or 720p). If the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR. The connectivity point for the AUGMENTED FEEDS is the **Home DED (Lead/Home) and Away DED (Away) ports** on the NHL Truck Bay Interface Box. When multiple unilateral broadcasts are on-site at the game venue, port assignments will be managed and communicated by the NHL Arena ATM or ATC. If a Rightsholder selects a "HOST" feed production model, notification to the NHL is required 30 days in advance of the telecast (details below on the notification process). In a "HOST" feed production model, the off-site production is REQUIRED to provide the Augmented Feed at the game venue. The technical requirements for the NHL Augmented Program Feeds are below.

**Postgame Melt:** The Postgame Melt feed and the quality of the melt is the life blood of the NHL's ability to provide quality footage to **ALL** rightsholders. Each rightsholder (Lead/Home/Away) producing the game is

**RIGHTSHOLDER FEEDS TO NHL** CONTINUED

responsible to feed their postgame melt via the NHL Augmented (DED) ports. Prior to feeding the Melt, all Rightsholders are to coordinate with both **NHL Virtual (DED/SLOT/On the Glass)** and **NHL Edge's** on-site technical teams to ensure continuity of all signal paths. Melts are to include all postgame press conferences or media availabilities. Please remind engineers and technical supervisors to maintain connectivity to the NHL Truck Bay Interface Box until after the melt has been confirmed. **To goodnight the signal postgame melt, all rightsholders are required to call the NHL VTOC (Presidio) at: phone #: 1-888-872-2501.**

**NHL Club Program Feed Distribution:** The Lead/Home and Away broadcaster are to provide each NHL Club's video department (Home & Away) the NHL Standard feed (non-delayed) with live programming starting one (1) hour prior to the scheduled game time. If an additional camera and/or feed(s) is requested, distribution is at the discretion of the Lead/Home broadcaster to provide and both HOME and AWAY NHL Club's video departments must mutually agree. NHL Broadcast Operations must be informed of these agreed upon feeds via email: [NHLBroadcastTechOps@nhl.com](mailto:NHLBroadcastTechOps@nhl.com).

**Protected Signals:** For any rightsholder requesting to implement a protected program signal (aka: bird beat), all requests are to be submitted in advance of the game to NHL Technical Operations via email: [NHLBroadcastTechOps@nhl.com](mailto:NHLBroadcastTechOps@nhl.com). Once approved by NHL Technical Operations, the protected signal(s) are not to be initiated until after the game day Calibration hour has concluded and all parties including the NHL, VTOC and other on-site broadcasters have confirmed pregame testing is complete. The protected signal must always have live video and audio on all applicable stems and channels and the game day schedule is to be reviewed in advance with all NHL Arena and Technical Operations staff at the game site during setup. (i.e. when the protected signal will be initiated/active and when the airable signal will be restored).

**Arena Control Room Feeds – "CONVENIENCE" FEEDS (Program and Camera ISO's):** The Lead/Home broadcaster is to coordinate with the Arena Game Presentation group/Arena in-house control room regarding the sharing of cameras and video feeds, including the NHL Standard and Archive feed(s). The Lead/Home on-site Broadcaster should also have the Game Presentation scoreboard line cut for in-arena display, identified at the broadcast interconnect area for ingest and redundancy planning.

**NHL Saturday and NHL Sunday (European Game(s) of the Week):** NHL Network and NHL International will notify each Rightsholder when their game will be aired nationally and/or internationally. Including the NHL Network Showcase, NHL Saturday and NHL Sunday schedule in the international prime time window. The NHL Standard feed requirements and all other technical requirements for video and audio will be communicated for those specific games via NHL Network and NHL Technical Operations.

**AUDIO:**

**Commercial Coordinator Communication:** The Lead/Home broadcaster is required to provide communications from the production truck (headset/belt pack) to the NHL Commercial Coordinator (TOC) located in the official game timekeeper box (center ice between penalty boxes) for game and commercial coordination.

**Game Timekeeper – EFX Audio Feed:** NHL is requesting the Lead/Home broadcaster provide a feed of EFX audio only (NHL will provide speaker) to the official game timekeeper box (center ice between penalty boxes) to help game officials hear whistles and will contribute to the overall game management and commercial coordination process.

**NHL Definitive Feed Communication:** The Lead/Home broadcaster is required to provide communications from the production truck (headset/belt pack) to the NHL video review operator in the NHL video replay

## RIGHTSHOLDER FEEDS TO NHL CONTINUED

room (in-arena) to help confirm availability and delivery of the video review feed “Definitive Feed” for coach’s challenge/video review determinations.

**Arena Control Room – Game Presentation Director Communication:** It is recommended that Lead/Each Lead/Home broadcaster is to provide prefader EFX to NHL radio rightsholders and the Game presentation group/Arena in-house control room.

**Radio / Control Room EFX Audio:** Each Lead/Home broadcaster is to provide pre-fade EFX to NHL radio rightsholders and the Game presentation group/Arena in-house control room.

**Pregame Technical Fax – VIDEO + AUDIO and 1 Hour Calibration Window:** The NHL requires all rightsholders to confirm transmission signals (audio and video) on the NHL Standard, NHL Archive, and the NHL Augmented program feeds via the **NHL VTOC (Presidio) at: phone #: 1-888-872-2501**. All signals are to be active at a minimum of four (4) hours prior to the scheduled game time or coincide with the start of the NHL Calibration hour.

The NHL has identified a one (1) hour window in each venue’s “day of game schedule”, which is to be utilized for all system calibrations (NHL Virtual and NHL Edge) and technical fax for all production systems, including signal transmission to Master Control. Rightsholders are to be integrated and prepared prior to this time with all facilities, crew, including NHL Virtual and NHL Edge, to ease operational process. Following the calibration period and the Pregame Technical FAX, all signals are to remain in a “locked” configuration, with Audio and Video passing to the NHL via the assigned ports of the NHL Truck Bay Interface Box. Please review with your engineering groups, especially for telecasts that produce a pregame show from site. For all feeds, audio engineers are to be reminded to establish and maintain broadcast standard “audio levels” on all channels throughout the telecast.

The Lead/Home broadcaster is to coordinate a test with NHL Off-ice Officials and Arena in-house control room personnel regarding commercial coordination, definitive feed communication, referee microphone audio and EFX audio feed to the NHL game timekeeper.

**Rightsholder Tech Reqs, Production Paperwork and Host Feed Notification Process:** All rightsholders are required to submit to the NHL via email: [NHLTVProdBooks@nhl.com](mailto:NHLTVProdBooks@nhl.com), each game’s Tech Req and production paperwork. NHL requires notification thirty (30) days in advance for any rightsholder selecting to produce a game telecast via the HOST feed production model. The off-site remote is also obligated to notify and coordinate all facilities and signals, including redundancy planning and all crewing with the Lead/Home rightsholder thirty (30) days in advance to the scheduled game. Notifications to the NHL for the HOST feed production model are to be submitted to: [HostFeedProduction@nhl.com](mailto:HostFeedProduction@nhl.com).

For Exclusive telecasts, REMI productions and games with a HOST feed production, the Lead/Home/Host broadcaster, as directed and coordinated by NHL Technical Operations, is required to provide up to two (2) CCU output ISO feeds to the NHL (ex. non-augmented game camera, a reverse camera or an endzone camera). The technical requirements for these feeds are below. For any REMI productions, the rightsholder is required to send the NHL required feeds back to the game site.

### CONTACT INFORMATION & TECHNICAL SUPPORT:

For venue specific technical integration questions or game day support, please contact the NHL’s Arena Technical Operations team, specifically that arena’s ATM (Arena Technical Manager) and/or the game day ATC’s (Arena Technical Coordinators).

**RIGHTSHOLDER FEEDS TO NHL** CONTINUED

Thank you in advance for your cooperation and for all other questions, please feel free to contact Ivan Gottesfeld at [igottesfeld@nhl.com](mailto:igottesfeld@nhl.com) (office: 212.789.2136) or Dan O'Neill at [doneill@nhl.com](mailto:doneill@nhl.com) (cell: 347.853.4999).

For specific questions related to the NHL Network, please contact Michael Stewart at [Michael.Stewart@mlb.com](mailto:Michael.Stewart@mlb.com) (office: 201.520.6423 / cell: 845.337.0626).

For questions related to the NHL SS (NHL Saturday and NHL Sunday International Productions), please contact Georgia Roxon at [groxon@nhl.com](mailto:groxon@nhl.com) (cell: 917.923.2318) or Chris Lawton at [clawton@nhl.com](mailto:clawton@nhl.com) (cell: 416.884.1505).

**NHL VIDEO FEEDS – TECHNICAL REQUIREMENTS:****NHL STANDARD Feed – (All National, Home and Away Telecasts)****Video:**

- a) Fully Produced Dirty PROGRAM Feed non-delayed, with **NHL Edge (PPT) Enhancements, excluding NHL Virtual (DED/Slot Virtual/On the Glass)**.
- b) Signal is to be in HD (1080p SDR, 1080i or 720p). IF the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR
- c) Signal is to be active at a minimum of four (4) hours prior to the scheduled game time and coincide with the start of the NHL Calibration Hour.
- d) For all host feed and remote productions, the broadcaster is required to return the NHL Standard feed to the game venue
- e) For non-National exclusive games, Lead/Home broadcaster is to deliver the feed to the **HOME STD** port on the NHL Truck Bay Interface Box, and Away telecast is to deliver the feed to the **AWAY STD** port on the NHL Truck Bay Interface Box
- f) For National exclusives, two (2) discrete versions of the Standard Feed are to be delivered to the NHL Truck Bay Interface Box, occupying both the **Home STD & Away STD** port
- g) Postgame MELTS are to be provided by Lead/Home and Away rightsholder(s) down the Augmented (DED).
- h) All alternate language productions (French, etc.) producing from the game venue are to provide the Standard Feed as scheduled and as requested by NHL Broadcast and NHL Broadcast Operations

**Audio:**

- a) Channels 1 & 2: Embedded Mixed Program Audio
- b) Channels 3 & 4: International Sound / Nat EFX Audio
- c) Channels 5 & 6: Reserved
- d) Channels 7 & 8: Reserved

**RIGHTSHOLDER FEEDS TO NHL** CONTINUED**NHL ARCHIVE (clean) Feed – (All National and/or Home Telecasts)****Video:**

- a) Clean: HD PGM Feed signal in HD (1080p SDR, 1080i or 720p). IF the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR
- b) Excludes NHL Virtual (DED/Slot Virtual/On-the-Glass) and NHL Edge (PPT)
- c) No Graphics: No Score Bar, no replay wipe required.
- d) For all games, the Lead/Home Broadcaster is to deliver the feed to the Clean STD on the NHL Truck Bay Interface
- e) Signal is to be active at a minimum of four (4) hours prior to the scheduled game time and/or coincide with the start of the NHL Calibration hour.

**Audio:**

- a) Channels 1 & 2: International Sound / Nat EFX Audio
- b) Channels 3 & 4: International Sound / Nat EFX Audio

**NHL AUGMENTED (DED) Feeds – (All National/Home and Away Telecasts)****Video:**

- a) Fully Produced Dirty - HD PGM Feed inclusive of all NHL augmentation: NHL Virtual (DED/Slot Virtual/ On the Glass) and NHL Edge (SMT Optics/SMT Replay)
- b) Signal in HD (1080p SDR, 1080i or 720p). IF the telecast is produced in 4k, 1080p HDR, the signal is to be down converted to 1080 SDR
- c) Signal is to be active at a minimum of four (4) hours prior to the scheduled game time and coincide with the start of the NHL Calibration hour.
- d) For all host feed and remote productions, the remote broadcaster is required to return to the game venue the fully produced game inclusive of all NHL Virtual.
- e) For non-National exclusive games, Lead/Home broadcaster is to deliver the feed to the Home DED port on the NHL Truck Bay Interface Box, and Away telecast is to deliver the feed to the Away DED port on the NHL Truck Bay Interface Box.
- f) For National exclusives games, two (2) discrete versions of the Augmented Feed are to be delivered to the NHL Truck Bay Interface Box, occupying both the Home DED & Away DED ports.
- g) All alternate language productions (French, etc.) producing from the game venue are to provide the Augmented Feed as scheduled and as requested by NHL Broadcast and NHL Broadcast Operations.
- h) LEAD/HOME broadcaster is required to provide to NHL Virtual the game camera iso (no audio)

**Audio:**

- a) 16-channel capability
- b) Stereo program and Stereo effects are required to be designated/assigned within channels 1-10

**RIGHTSHOLDER FEEDS TO NHL** CONTINUED***Exclusive Telecasts, REMI Productions and Host Feed Productions*****Video:**

- a) The broadcaster is required to provide up to two (2) CCU output ISO feeds to NHL, as directed by NHL. For example, non-Augmented game camera, reverse camera, endzone camera.
- b) Port assignments will be assigned by the on-site NHL ATM or ATC [TBI Port 1- Game Camera, TBI Port 4- Reverse Camera]
- c) Signal(s) are to be active two (2) hours prior to the scheduled game time and no audio is to be associated with the signal

**Definitions:**

**NHL Virtual:** The term describing NHL virtual graphics and enhancements provided by the NHL (and vendor Supponsor).

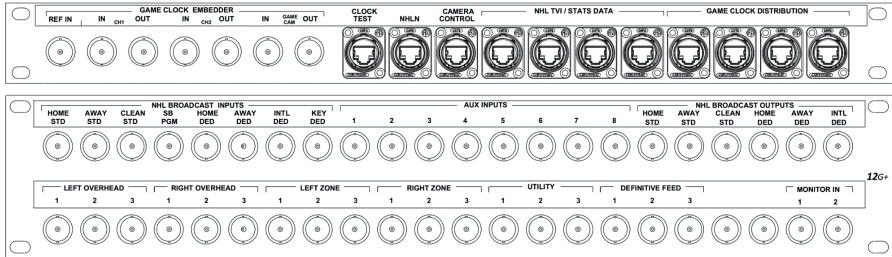

- Digitally Enhanced Dashboards or DED
- Slot Virtual (image presented on the ice inside the offensive zones along the blue lines)
- On-the-glass Ads for Regional rightsholder telecasts only

**NHL Edge :** The term describing NHL enhancements provided by the NHL (and vendor SMT)

- Player puck tracking (PPT)
- SMT Optics (SMT Camera 1)
- CIS (Commentator Information Screen)
- SMT Replay (Replay Packages)

**NHL Augmentation:** Collective term describing all enhancements provided by the NHL.

## NHL TRUCK BAY INTERFACE BOX (TBI):

**GAME CLOCK EMBEDDER** - Video Inputs / Outputs for Broadcaster transmission paths routed through serial embedder cards

**CLOCK TEST** - Data port used for verifying serial clock embedding

**NHLN** - Ethernet port for NHL Network

**CAMERA CONTROL** - Ethernet port for connecting the Panasonic remote used for "painting" the NHL zone camera's

**NHL TVI / STATS DATA** - Distribution of TVI scoring data and stats

**NHL CLOCK DISTRIBUTION** - Distribution of RS232 Game Clock Data (RJ45 Pinout - 4 GND, 6 DATA) (T568 B Color Code - Blue GND, Green DATA)

**NHL INPUTS (Multi Format)** - Ingest of Broadcast Video Signals.

**HOME STD** - Lead / Home standard dirty program feed

**AWAY STD** - Away standard dirty program feed

**CLEAN STD** - Lead / Home clean program feed, used for NHL archive

**SB PGM** - Scoreboard program from arena game presentation

**HOME DED** - DED program from home broadcaster

**AWAY DED** - DED program from away broadcaster

**INTL DED** - Provided by Supponor, copy of Home standard PGM used for remote rendering of International PGM

**KEY DED** - Provided by Supponor, used for remote rendering of International PGM

**AUX INPUTS (Multi Format)** - Auxiliary video inputs, assigned by NHL

**NHL BROADCAST OUTPUTS** - Confidence outputs of the broadcast program feeds

**LEFT OVERHEAD** - Video outputs of the NHL left overhead Camera (720p 59.94, no audio)

**RIGHT OVERHEAD** - Video outputs of the NHL right overhead Camera (720p 59.94, no audio)

**LEFT ZONE** - Video outputs of the NHL left zone camera (1080p 59.94, EFX audio on 1/2,3/4)

**RIGHT ZONE** - Video outputs of the NHL right zone camera (1080p 59.94 EFX audio on 1/2,3/4)

**UTILITY** - Video outputs, assigned by NHL

**DEFINITIVE FEED** - Video outputs of the NHL definitive feed used in video review (720p 59.94, no audio)

**MONITOR IN** - Video inputs for the Q.C. monitor in the NHL rack

## DED AND SLOT VIRTUAL – NHL VIRTUAL CALIBRATION HOUR

\*One hour window starts 4 hours prior to scheduled game time (3-4pm for a 7pm game)

<b>0-25 Minutes</b>	<b>SMT/Supponor Calibration:</b> <ul style="list-style-type: none"> <li>• Optical Center Point</li> <li>• Panoramas</li> <li>• Confirm System Tracking DED/Slot</li> <li>• Confirm NHL Standard feed (Dirty Program) with Stereo audio is sent to the NHL TBI at the start the of the NHL Virtual Calibration window.</li> <li>• Confirm On the Glass</li> </ul>	<b>Crew Involvement:</b> <b>Game Camera Operator</b> <b>Tech Manager/Tech Producer</b> <b>Video Engineer (V1)</b>
20-50 Minutes	<b>SMT/Supponor Virtual system prep</b>	N/A
50-60 Minutes	<b>SMT/Supponor Virtual Verification and VTOC (5 minutes per Broadcaster)</b> <ul style="list-style-type: none"> <li>• Confirm Broadcaster is receiving the correct Augmented Feed + SMT signals and VTOC is receiving correct feeds (NHL Standard/NHL Archive/NHL Augmented feeds per NHL requirements)</li> <li>• Broadcaster puts Game Camera on program (Confirms DED/Slot Keying)</li> <li>• Game Camera Operator to pan around to simulate game play motion and have bug cross over Dashers. (Confirms Camera Tracking)</li> <li>• Broadcaster adds Score Bug and Program Audio (Confirms DED/Slot Graphics detection and the audio return with EIC is good)</li> <li>• Cut away from Game Camera and then Cut Back (Confirms Camera Detection)</li> <li>• Replay transition from Game Camera to another source</li> <li>• Broadcasters puts SMT Encoded Game Camera on program with SMT Graphics Active. (Confirms SMT Encodes)</li> <li>• Game Camera Operator pans around to simulate Game Camera motion. (Confirms SMT Tracking)</li> </ul>	<b>Crew Involvement:</b> <b>Technical Director</b> <b>Game Camera Operator</b> <b>- Program Sound required on feed</b> <b>Visible in transmission and with game Director</b>
Phone Numbers	<b>VTOC: 888-872-2501    ROC: 416-435-7063    NHL EDGE (SMT): 919-354-4812</b>	

## **RF COORDINATION**

---

The purpose of the RF coordination is to protect and accommodate the use of all wireless equipment necessary to host a successful event without potential unwanted RF interference. Wireless equipment can be utilized by various constituents, including but not limited to: the host venue, the NHL team including Game Presentation, the National Hockey League, broadcast rightsholders (TV/Radio) and local + visiting media. Wireless devices requiring coordination include any wireless microphone(s), transmitters of all types (IFB's, ENG, aerial cameras, etc.), portable transceivers (other than Cellular telephones) and any other device that emits radio frequency energy.

Frequencies in use/assigned by the NHL and host Venue will be posted in a few standard venue locations:

- a) TV compound/broadcast parking locations
- b) All media entrances
- c) Media/Photography workroom(s)
- d) NHL Pressbox.

The Frequency lists are to be referenced prior to selecting the operating frequency(s) for each piece of equipment. The minimum separation for VHF/UHF (wideband) carriers is 0.400Mhz.

Please refer to the Arena RF Contacts list for detailed information for each NHL venue. Included are the referee microphone frequencies being used in each venue. Any questions about the NHL RF coordination program please contact:

Cliff Pospisil, NHL - Director, Technical Game Operations  
Email: cpospisil@nhl.com | Office: 212.324.6150 | Cell: 646.208.5916

## **REFEREE MICROPHONES**

---

The audio of the penalties/reviews announced by the referees is available to broadcasters. Setup in an arena is such: A "pre fade" isolated feed available in the truck compound/broadcast parking locations. Testing if requested with NHL ATC's can be from 1-2 hrs prior to the game. Please refer to the Arena RF Contacts list if you have questions or issues regarding the feed in a specific NHL venue. Any questions about the NHL Referee Microphone program please contact:

Cliff Pospisil, NHL - Director, Technical Game Operations  
Email: cpospisil@nhl.com | Office: 212.324.6150 | Cell: 646.208.5916

# MEMBER CLUBS

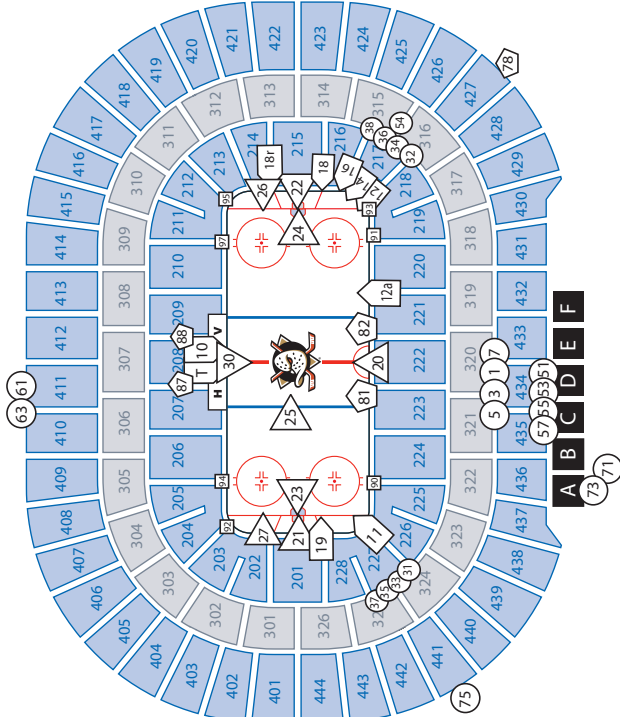

2024-25  
BROADCAST FACTBOOK

# ANAHEIM DUCKS

## Honda Center - ANAHEIM, CA

### CAMERA POSITIONS

- 1,3,5,7\* Center ice platform suite level above left side of 320 (game camera map 1, map 7 left), 3x-ways-playsiffs ONLY)
- T10\* Ice level/HH/T talent between the benches
- 11 Ice level/HH left corner, aisle of sec. 227 & 226
- 12,14,16 Ice level/HH right corner Zamboni entrance
- 12a\* HH right, aisle of sec. 220/221 (cable jump from Zam)
- 18\* HH far side right, aisle of sec. 215/216 (cable jump from Zam)
- 19\* Ice level aisle bottom of sec. 201/228 (cable jump from east goal panel)
- 20-22 Robotic - Center, left, Right
- 23,24 Netcams
- 25 Robotic - S coreboard (in-house provided)
- 26,27 Anklecams - Right end, Left, end far
- 30\* Robotic reverse center between benches
- 31,33,35,37 Left corner slash above 217
- 32,34,36,38 Top of 434 (seat kills; playsiffs only)
- 51,53,55,57\* Aisle of section 315/316
- 54 Top of 411 (seat kills; needs platform over seats)
- 63\*\* Top of 411 (seat kills; playsiffs only; needs platform)
- 71,73\* Center ice 700 level above press box (need to tie down sticks)
- 75\* High left over sec. 441, 700 level (need to tie down sticks)
- 78 High right wide beauty POV (in-house provided)
- 81,82 Platform box POV
- 87 Home hallway POV (in-house provided)
- 88 Visitors hallway POV (in-house provided)

\*Per club approval  
\*\*Please be seated at least 10 days in advance to Joey Liberator ([jliberator@anaheimducks.com](http://jliberator@anaheimducks.com)) This position is not guaranteed.

\*\*\* Need to request position 10 days in advance to Joey Liberator.  
No seat kill cost

### ANNOUNCE POSITIONS

- A Visiting radio 3/visiting TV 4 (press box seats 12-14)
- B Visiting radio 2/visiting TV 3 (press box seats 16-17)
- C Visiting team Radio/visiting TV 2
- D Visiting team TV
- E Home team TV
- F Home team Radio

### TV STUDIOS

- A Home - Star Room B (Home/national studio & green room)
- B Visitor 1 - Star Room C (Visiting/national studio & green room)
- C Visitor 2 - Star Room D (Alt. studio + green room)
- D Visitor 3 - Production Room 3 (Alt. studio + green room)
