

#NHLStats about the Edmonton Oilers, who are headed to the postseason for a fourth straight year and 25th time in franchise history. Edmonton became the eighth team to clinch a berth in the 2023 Stanley Cup Playoffs by winning Saturday.

1. Edmonton holds the highest playoff *game* winning percentage in NHL history (.583) and the League's second-highest *series* winning percentage (.661), has captured the Stanley Cup five times (1984, 1985, 1987, 1988 & 1990). The Oilers' five championships are tied with the Penguins for the most among non-Original Six franchises.

2. **Connor McDavid** can become the third player in NHL history to win the Stanley Cup after posting six or more 100-point seasons – **Mario Lemieux** (6x; 1991 PIT) and **Steve Yzerman** (6x; 1997 DET) are the only players to have done so to date. Only two players in the last 30 years have won the Art Ross Trophy and Stanley Cup in the same season: **Evgeni Malkin** in 2008-09 with the Penguins and **Martin St. Louis** in 2003-04 with the Lightning.

3. It has been 36 years since a player had a 60-goal season en route to winning the Stanley Cup. **Connor McDavid** can join **Wayne Gretzky** (1984, 1985 & 1987 EDM), **Mike Bossy** (1981, 1982 & 1983 NYI), **Jari Kurri** (1985 EDM), **Guy Lafleur** (1978 MTL), **Steve Shutt** (1977 MTL) and **Phil Esposito** (1972 BOS) in achieving that feat. The most goals in one season, including playoffs, among active players is 69 by **Alex Ovechkin** in 2007-08.

4. **Leon Draisaitl** (18-41—59 in 37 GP) and **Connor McDavid** (21-34—55 in 37 GP) are the highest-scoring active players in the postseason on a points-per-game basis (min. 30 GP) – Draisaitl (1.59) tops the list followed by McDavid (1.49). They also rank among the top five in Stanley Cup Playoffs history under the same criteria. The duo already sits with the NHL's top 10 for most points through their first 40 career playoff outings (details below).

5. **Connor McDavid** and **Leon Draisaitl** have both factored on the same goal 32 times in their postseason careers, tied for the eighth highest total since their playoff debuts in 2017 and 10 back of leaders **Nikita Kucherov** and **Brayden Point** of the Lightning (42). McDavid and Draisaitl will endeavor to become the second duo in NHL history – and first in more than 50 years – to each win both the Art Ross Trophy and Hart Trophy *as teammates* before claiming their first Stanley Cup together (only **Bobby Orr** and **Phil Esposito** have done so).

6. Among the memorable performances during the Oilers' run to the 2022 Conference Finals were a playoff-record four goals in 71 seconds during Game 5 of the "Battle of Alberta," a playoff-record four-assist period by **Leon Draisaitl** in Game 3 vs. Calgary (along with 17 points overall in that series), a playoff-record five straight three-point games by Draisaitl and a combined 65 points between him and **Connor McDavid** in the postseason.

7. **Evander Kane** has 19-11—30 in his playoff career (44 GP) including 13-4—17 for the Oilers last year (15 GP) – with seven of those goals scored in the 2022 First Round. Only eight players in the NHL's modern era (since 1943-44) have required *20 or fewer playoff games to accumulate 15 goals with a franchise* – **Maurice Richard** (14 GP w/ MTL) was fastest on that list and **Joe Sakic** (19 GP w/ QUE/COL) was the most recent.

8. **Ryan Nugent-Hopkins**, the longest serving current Oilers player, can become the eighth player in NHL history to play his first 12+ seasons with a franchise and then win his first Stanley Cup with them – a feat achieved twice in the last 25 years (**Alex Ovechkin**: 2018 w/ WSH, 13 seasons; **Steven Stamkos**: 2020 w/ TBL, 12 seasons).

9. **Stuart Skinner** can become the fourth rookie goaltender to play for the Oilers in the postseason and the third to win a game after **Andy Moog** (5-4 in 1981) and **Grant Fuhr** (2-3 in 1982). Moog (Game 3 of 1981 PRLM) is the only rookie to win a series-clinching game for Edmonton. **Jack Campbell**, meanwhile, has played a Game 7 in each of his first two career Stanley Cup Playoffs series – only three goaltenders in NHL history have done so in each of the first three series in which they played (**Braden Holtby**: 5; **Semyon Varlamov**: 4; **Felix Potvin**: 3).

10. Edmonton is one of seven teams without a Stanley Cup winner (details in "Stanley Cup Winners by Roster" list) but have three players with Final experience. The Oilers can become the fifth team in the past 94 years (since 1929) to win a Cup with each winning member not having previously won.
