	Q & A
	<i>What career advice can you give others?</i>
	The best advice I could offer would be to always be confident in your abilities, you don't have to prove yourself when your work speaks for itself. Be willing to always want to learn as well as learn from your mistakes and don't be afraid to fail. It's important to surround yourself both in the workplace and outside of it with people who support you and lift you up, I have been very fortunate in that regard.
